

BUILD INSTRUCTIONS

Pumpkin Spice Latte

The clear glass mug edition, in LEGO® bricks

189
pieces

13 × 8 cm
16 × 10 studs

Custom kit

A custom model built from genuine LEGO® elements. It is not affiliated with, sponsored or endorsed by The LEGO Group. LEGO® is a trademark of The LEGO Group.

About this model

A clear glass mug of pumpkin spice latte, with the latte and its foam showing through the glass, topped with whipped cream, a dusting of cinnamon and nutmeg and a cinnamon stick. It stands on a wooden board with a little pumpkin, a bundle of cinnamon sticks and autumn leaves.

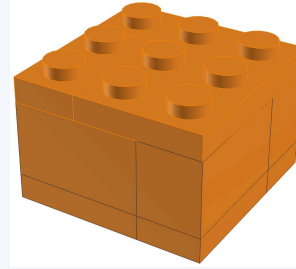

Pieces	189 elements, 35 kinds, 7 colours
Size	16 × 10 studs (12.8 × 8 cm), 9 cm tall to the top of the cinnamon stick
Build time	about 30 to 45 minutes
Model files	pumpkin_spice_latte_clear.mpd (LDraw). Opens in BrickLink Studio, LeoCAD and LDCad.

How the build is organised

1. The board
2. The glass mug
3. The pumpkin
4. Cinnamon sticks and leaves

The mug and the pumpkin are built on their own and then set on the board. Every section starts with a list of the parts it needs.

Reading the steps

Parts added in each step are **outlined in orange**. The blue box shows the parts for that step and how many of each you need. Part pictures are drawn to scale; plates longer than 8 studs are drawn at half size.

Tips

- The latte inside the mug is built first, course by course, with a clear round brick at each corner. The four clear panels then slide in around it.
- Each clear panel has a flat side and an open side. Put the flat side on the outside of the mug, as in the pictures.
- The clear plates around the rim lock the corners to the panels, so press them down firmly before adding the tiles.

Getting the parts

Every element is listed with its LEGO Element ID in the inventory at the back, and in parts/ as CSV and BrickLink XML files. See “Ordering the parts” on the last pages.

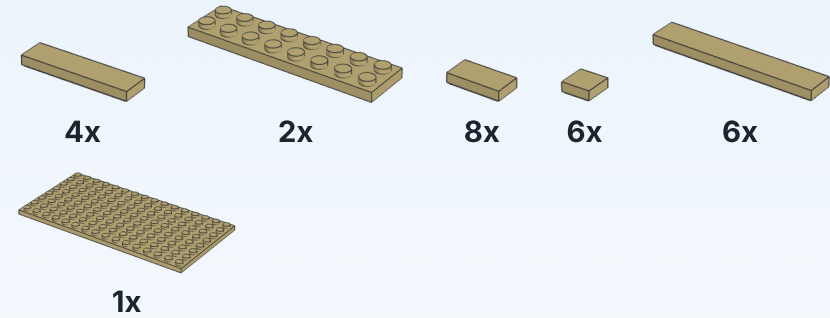

1

The board

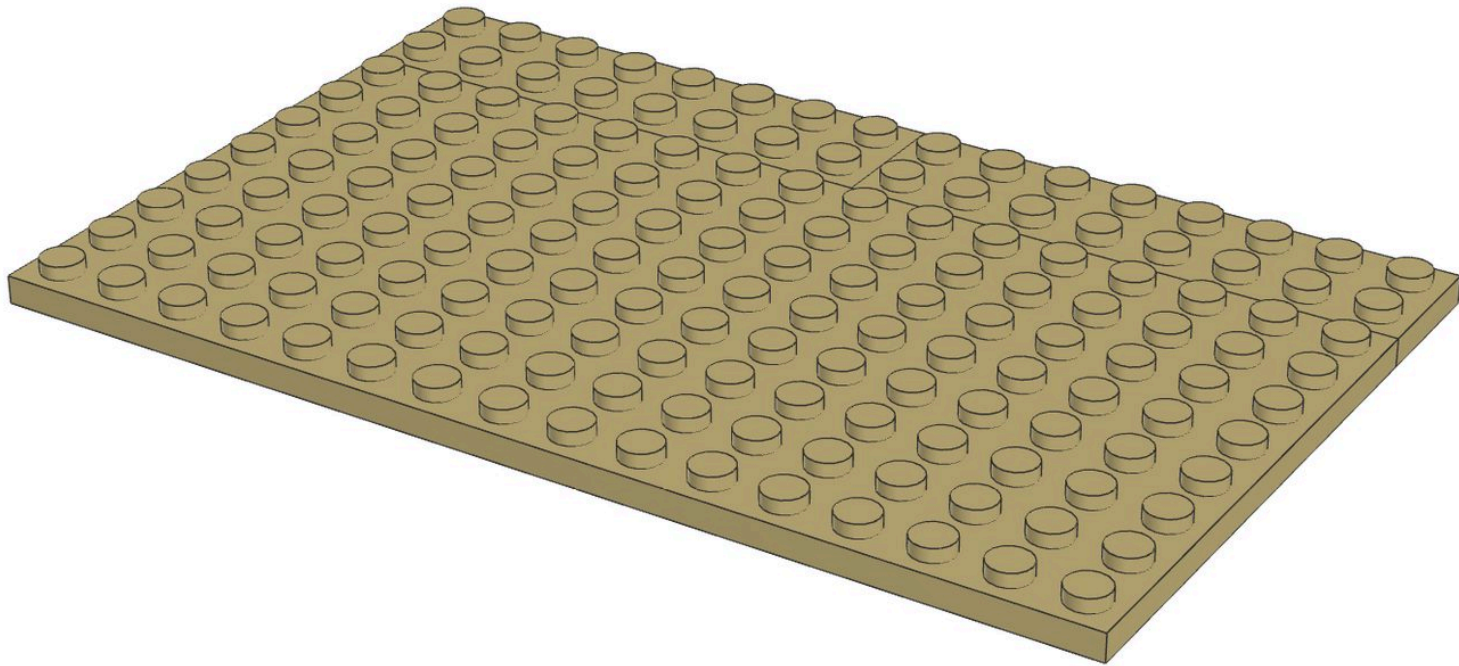

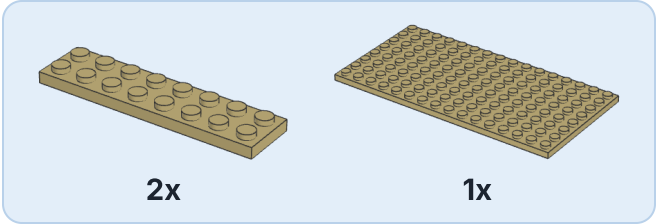

One big plate and two long ones make the board, and tiles make the planks. Leave the gaps open: the mug, the pumpkin, the cinnamon sticks and the leaves go there.

Ordering the parts

1 · LEGO Pick a Brick (lego.com)

1. Go to **lego.com** → **Pick and Build** → **Pick a Brick** and choose **Upload list**.
2. Upload parts/pick_a_brick_upload.csv. It lists all 35 kinds of element by Element ID with their quantities, and fills your bag in one go.
3. If anything isn't matched, upload pick_a_brick_upload_retry.csv. It has LEGO's newer IDs for the same parts; many white parts got new IDs in 2025. Or search the inventory's design number and colour.
4. Bestseller elements can be ordered up to 999 at a time. Many Standard elements are limited to 10 per order. Every element in this kit was in the Bestseller range, which ships from the US warehouse.

2 · BrickLink or Rebrickable (backup)

The files in parts/ cover anything Pick a Brick does not stock:

- bricklink_wanted_list.xml: BrickLink → Want → Upload.
- rebrickable_parts.csv: import it as a Rebrickable part list, then compare stores.
- pick_a_brick_mapping.csv: how each part maps to Pick a Brick, with the evidence, the last price seen and a BrickLink backup.

What it costs

At Pick a Brick prices seen in 2022–2025, the 189 elements with a known price come to about **US\$23**, plus shipping. LEGO raised prices on about a third of Pick a Brick elements in 2026, so expect to pay more. The bag total after uploading shows the current price.

Order a few spare 1×1 bricks and plates, because small parts go missing easily.

Substitutions

- **Board:** any colour of plates and tiles makes a different table top.
- **Drink colour:** the bricks inside the mug show through the glass: dark tan and tan make a latte, reddish brown makes a black coffee.
- **Handle:** each clear 1×2 brick in the handle can be swapped for two clear 1×1 round bricks.

Colour names

In this booklet	LEGO name	BrickLink
Trans-Clear	Transparent	Trans-Clear
Tan	Brick Yellow	Tan
Dark Tan	Sand Yellow	Dark Tan
Orange	Bright Orange	Orange
Green	Dark Green	Green
