

BUILD INSTRUCTIONS

Polynesian Village Resort

A mid-size display model in LEGO® bricks

570
pieces

26 × 19 cm
32 × 24 studs

Unofficial fan design

An unofficial fan-designed model (MOC), inspired by Disney's Polynesian Village Resort at Walt Disney World. It is not affiliated with, sponsored or endorsed by The LEGO Group or Disney. LEGO® is a trademark of The LEGO Group.

About this model

The heart of the Polynesian: the Great Ceremonial House, a long hall under a very tall, steep thatched A-frame roof, with its dark timber gable and tall window over the entrance, and timber posts and glass along its long sides. Beside it stands a three-storey guest longhouse with balconies under a steep thatched roof of its own, looking out over a sandy beach and a strip of the lagoon. A sandy path lined with tiki torches leads to the door, and palms grow on the lawn and the beach.

Pieces	570 elements, 52 kinds, 9 colours
Size	32 × 24 studs (25.6 × 19.2 cm), 14 cm tall
Scale	about 1:250 (one storey = 4 plates, 1 stud ≈ 2 m), like the large resort models
Build time	about 2 to 3 hours
Model files	polynesian_midsize.mpd (LDraw). Opens in BrickLink Studio, LeoCAD and LDCad.

How the build is organised

1. The display base, the lawn, the path, the beach and the lagoon
2. The Great Ceremonial House
3. The guest longhouse
4. The tiki torches and the palms (build 6 torches and 3 palms)

Every kit in the mid-size resort collection stands on the same 32×24 display base with a black front band. Each section starts with a list of the parts it needs.

Reading the steps

Parts added in each step are **outlined in orange**. The blue box shows the parts for that step and how many of each you need. Part pictures are drawn to scale; plates longer than 8 studs are drawn at half size.

Tips

- The roofs go up one course at a time: first the dark tan plates, then the tan slopes on them, then the reddish brown bricks of the gables at the ends.
- Each slope sits on the dark tan plate below it. Press every slope down firmly before the next plates go on: they lock the slopes together.
- On the longhouse, the railings and the posts between the balconies stand one stud in front of the glass doors; the floor plates above tie them to the walls.
- A **"Build 6"** or **"Build 3"** badge means you build that module that many times.

Getting the parts

Every element is listed with its LEGO Element ID in the inventory at the back, and in parts/ as CSV and BrickLink XML files. See "Ordering the parts" on the last pages.

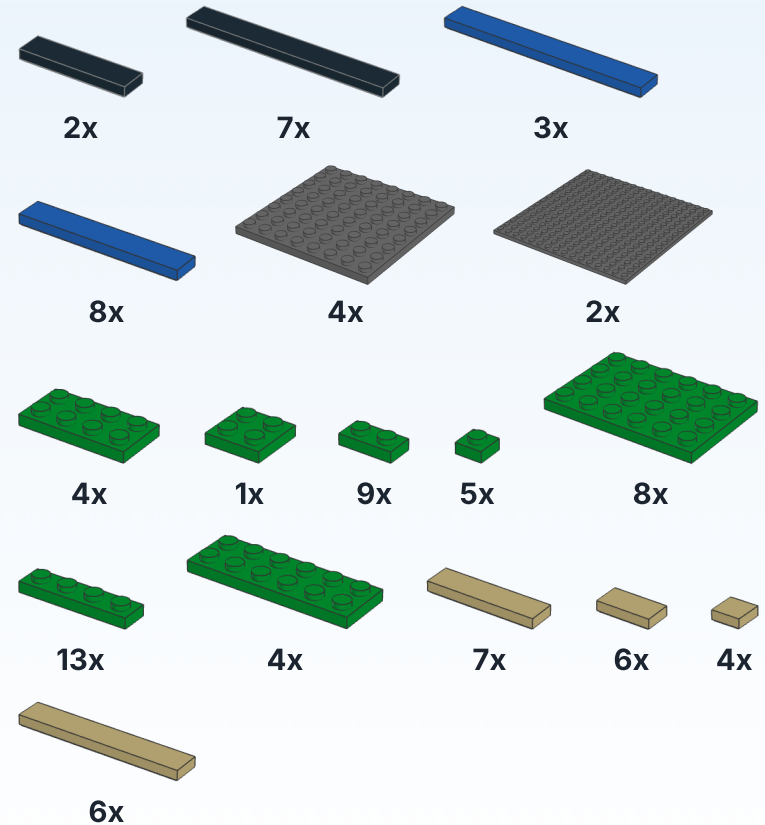

1

The display base

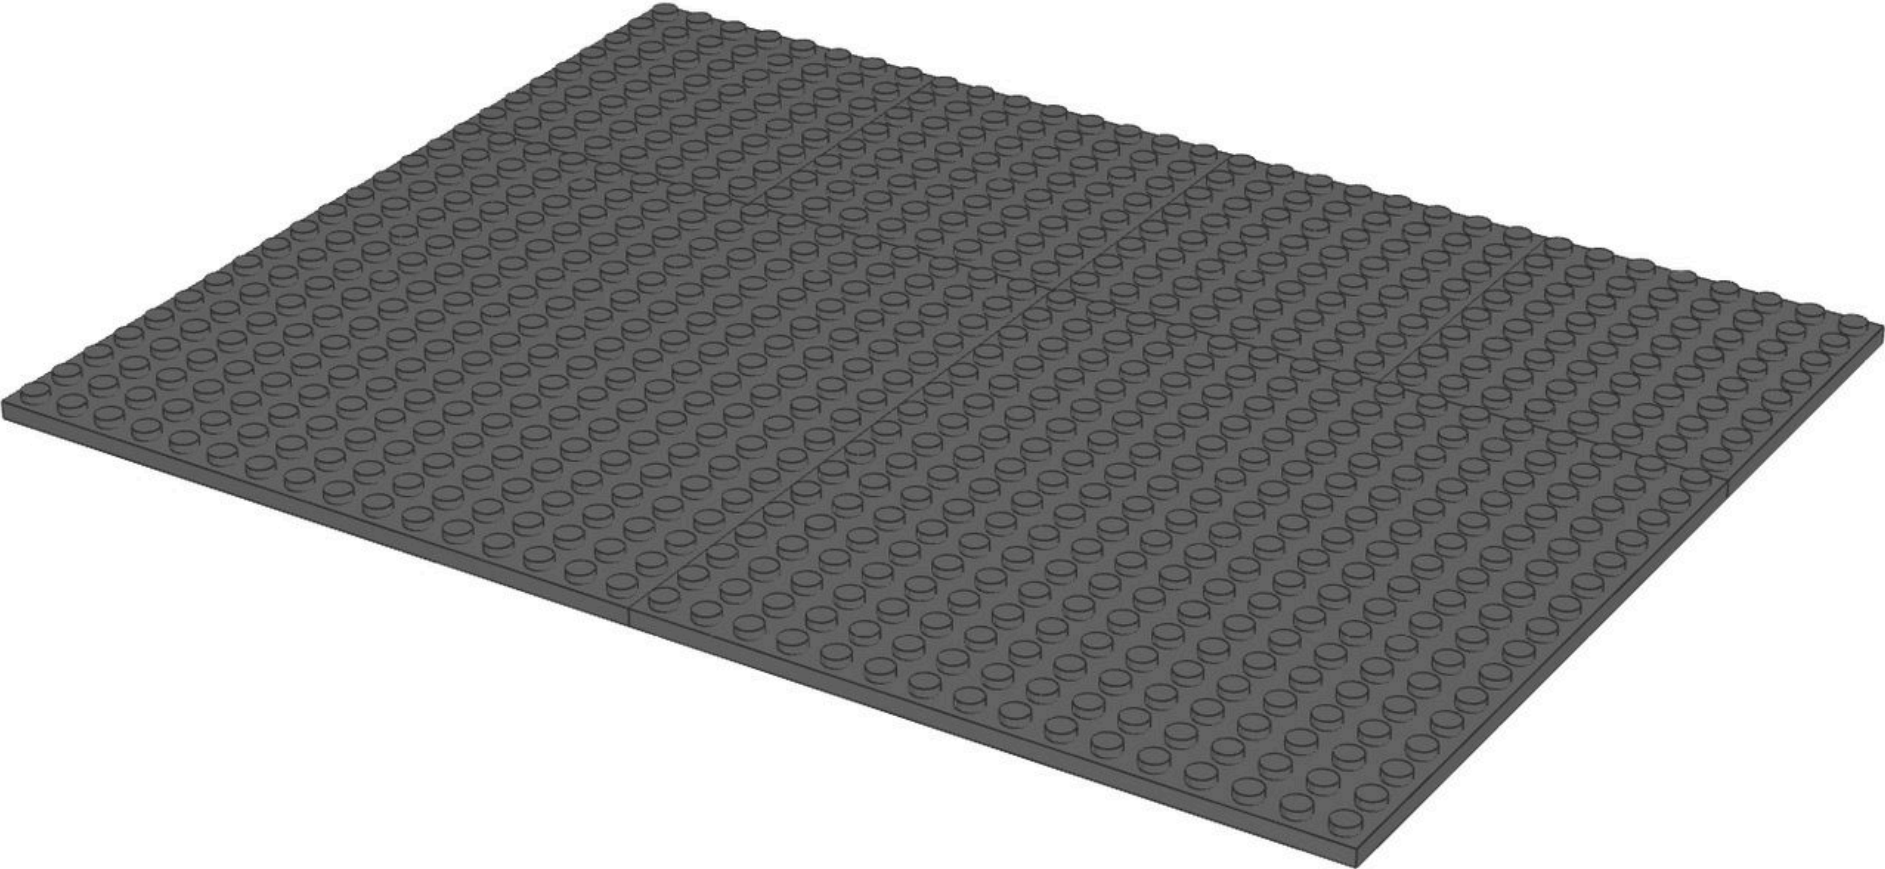

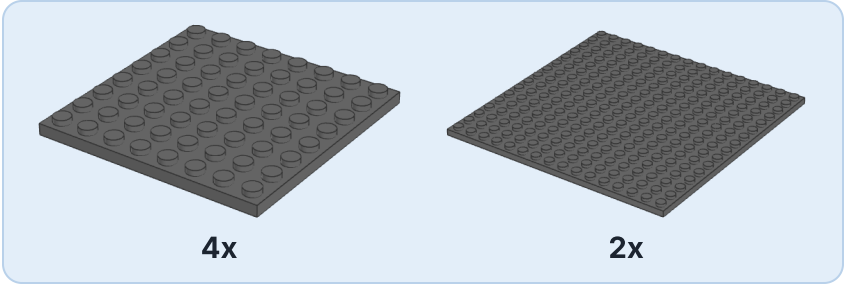

The base and the black band are the same for every mid-size kit in the collection. Then the lawn, the sandy path, the beach and the lagoon.

93 elements in this section

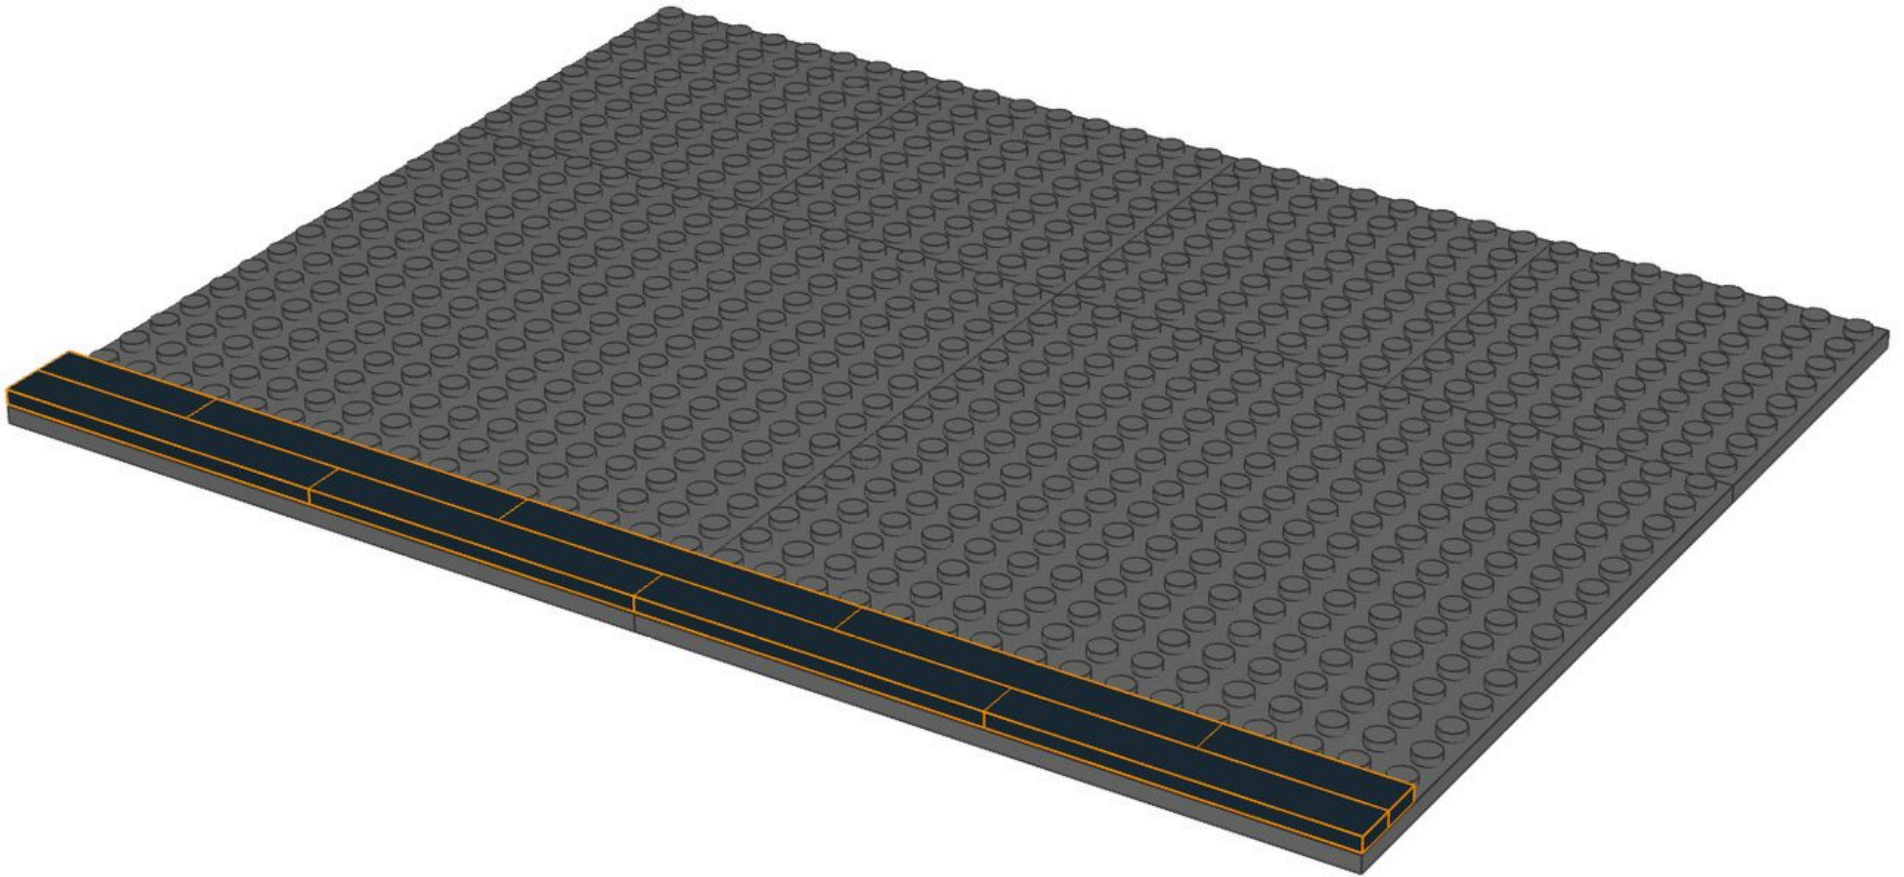

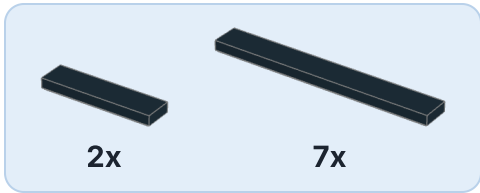

PARTS FOR THIS SECTION

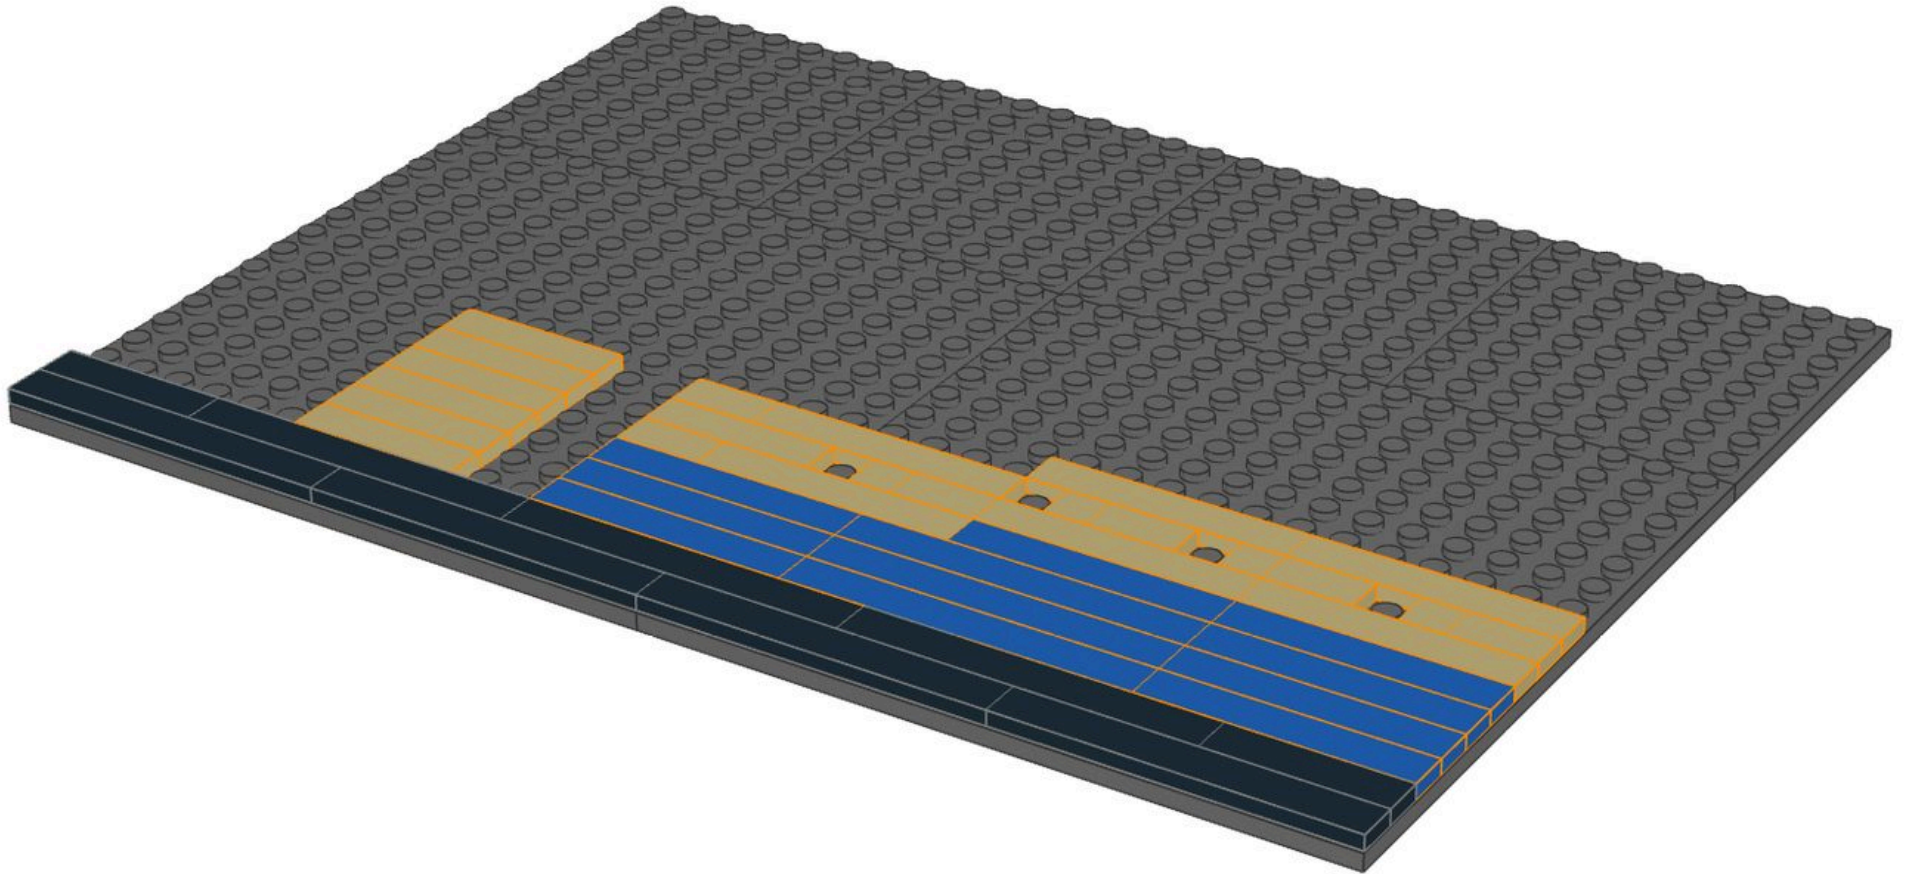

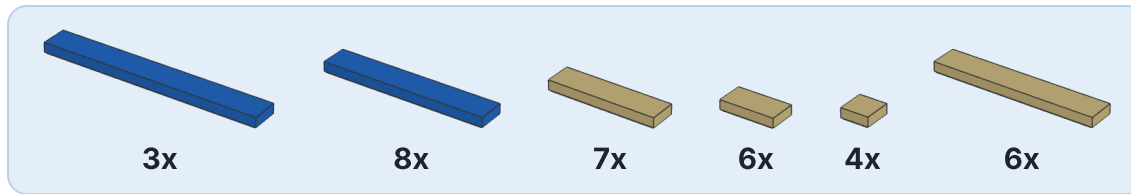

1

2

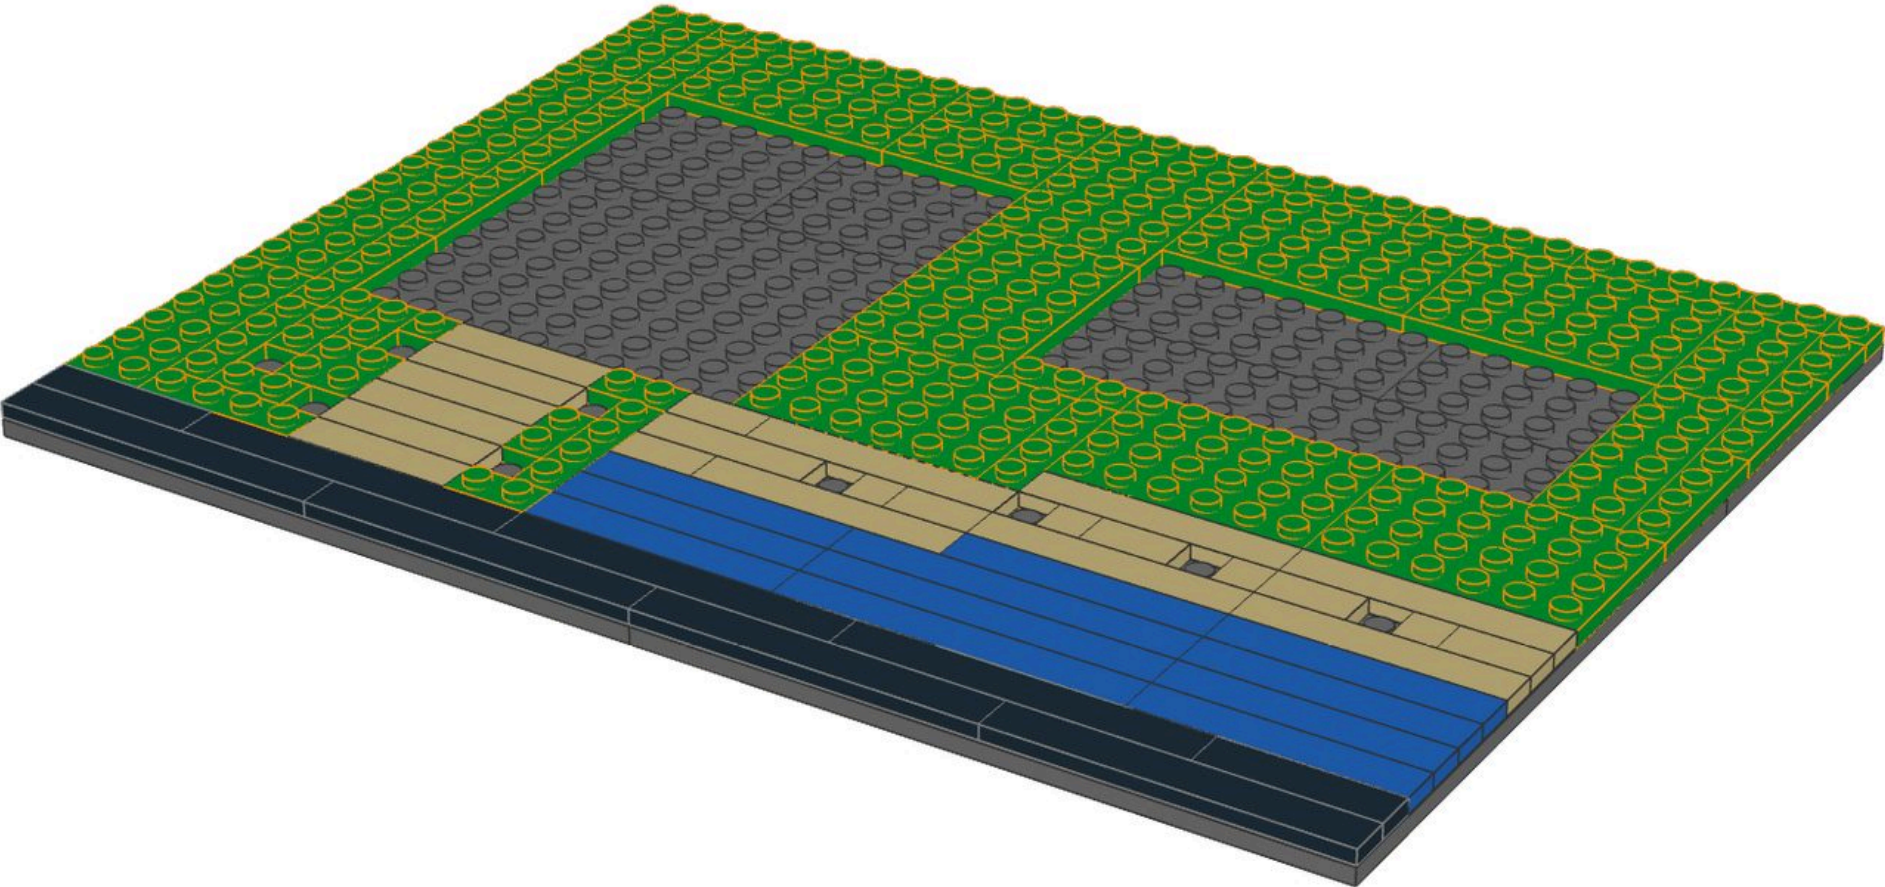

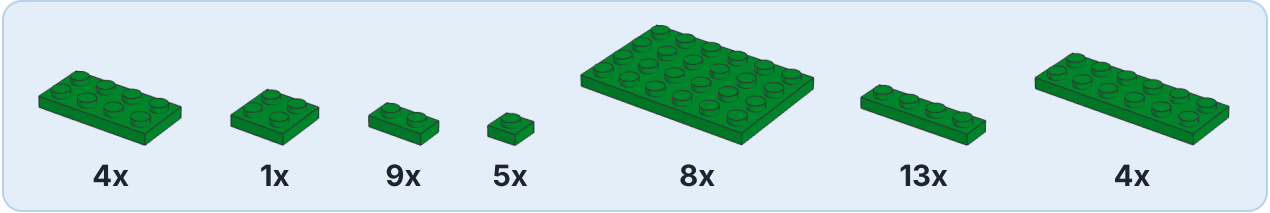

3

The tiles of the lagoon and the beach run across the seam between the two big base plates and help hold them together.

4

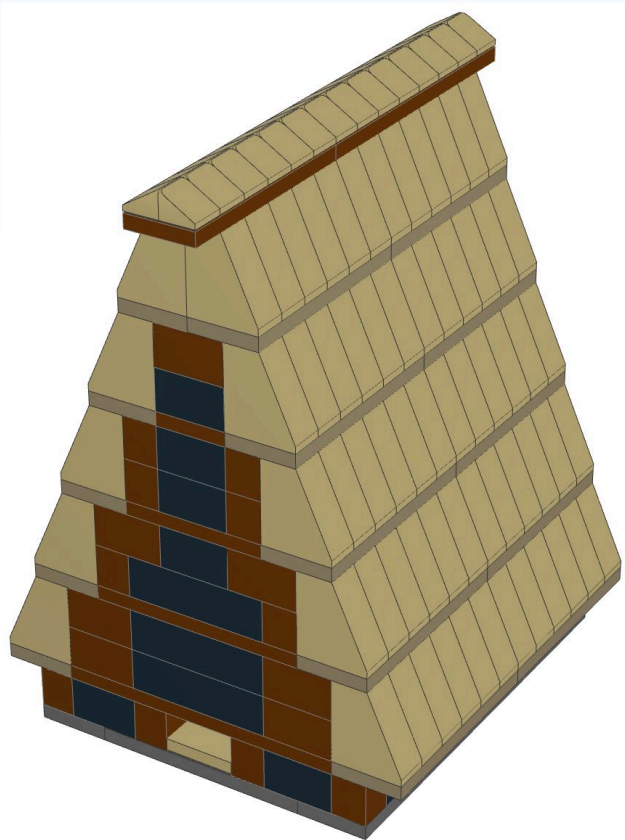

THE DISPLAY BASE

2

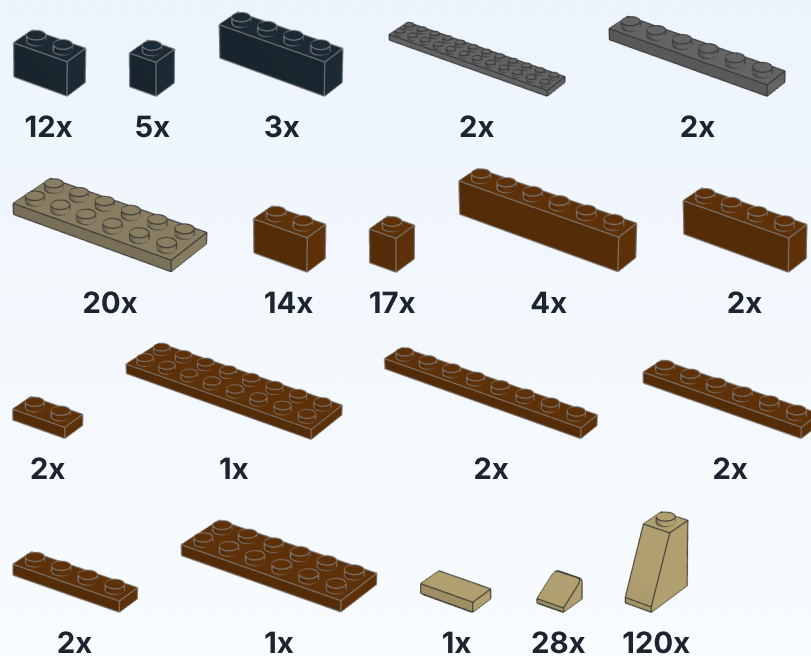

The Great Ceremonial House

A low storey of timber and glass, then the steep roof one course at a time: a dark tan tie plate on each side, the tan slopes on it, and the timber gables between them.

Ordering the parts

1 · LEGO Pick a Brick (lego.com)

1. Go to **lego.com** → **Pick and Build** → **Pick a Brick** and choose **Upload list**.
2. Upload parts/pick_a_brick_upload.csv. It lists all 52 kinds of element by Element ID with their quantities, and fills your bag in one go.
3. If anything isn't matched, upload pick_a_brick_upload_retry.csv. It has LEGO's newer IDs for the same parts; many white parts got new IDs in 2025. Or search the inventory's design number and colour.
4. Bestseller elements can be ordered up to 999 at a time. Many Standard elements are limited to 10 per order. Every element in this kit was in Pick a Brick's Bestseller range, which ships from the US warehouse.

2 · BrickLink or Rebrickable (backup)

The files in parts/ cover anything Pick a Brick does not stock:

- bricklink_wanted_list.xml: BrickLink → Want → Upload.
- rebrickable_parts.csv: import it as a Rebrickable part list, then compare stores.
- pick_a_brick_mapping.csv: how each part maps to Pick a Brick, with the evidence, the last price seen and a BrickLink backup.

What it costs

At Pick a Brick prices seen in 2022–2025, the 570 elements with a known price come to about **US\$77**, plus shipping. LEGO raised prices on about a third of Pick a Brick elements in 2026, so expect to pay more. The bag total after uploading shows the current price.

Order a few spare 1×1 bricks and plates, because small parts go missing easily.

Substitutions

- **Ground:** any colour of tiles works for the base around the building.
- **Hidden parts:** bricks and plates inside the building can be any colour.

Colour names

In this booklet	LEGO name	BrickLink
Tan	Brick Yellow	Tan
Dark Tan	Sand Yellow	Dark Tan
Reddish Brown	Reddish Brown	Reddish Brown
