

BUILD INSTRUCTIONS

Port Orleans Riverside

244
pieces

19 × 13 cm
24 × 16 studs

A compact display model in LEGO® bricks

Unofficial fan design

An unofficial fan-designed model (MOC), inspired by Disney's Port Orleans Resort - Riverside at Walt Disney World. It is not affiliated with, sponsored or endorsed by The LEGO Group or Disney. LEGO® is a trademark of The LEGO Group.

About this model

A Magnolia Bend mansion of Port Orleans Riverside: a white plantation-style house with a two-storey front porch behind a row of tall white columns, a grey hipped roof with dormers and brick chimneys, and a magnolia tree in bloom on the lawn.

Pieces	244 elements, 45 kinds, 6 colours
Size	24 × 16 studs (19.2 × 12.8 cm), 9 cm tall
Scale	about 1:250 (one storey = 4 plates, 1 stud ≈ 2 m), like the large resort models
Build time	about 1 to 1½ hours
Model files	port_orleans_riverside_compact.mpd (LDraw). Opens in BrickLink Studio, LeoCAD and LDCad.

How the build is organised

1. The display base and the lawn
2. The mansion
3. The magnolia tree

Every kit in the compact resort collection stands on the same 24×16 display base with a black front band. Each section starts with a list of the parts it needs.

Reading the steps

Parts added in each step are **outlined in orange**. The blue box shows the parts for that step and how many of each you need. Part pictures are drawn to scale; plates longer than 8 studs are drawn at half size.

Tips

- Each storey is one course of white bricks with black bricks for the windows, then a band of white plates. The columns are white round bricks with a round plate between them, level with the balcony.
- The roof goes up one row of slopes at a time. The three dormers have a step of their own, between the second and third rows of slopes.
- Keep the white round tiles for the end: they are the magnolia's flowers.

Getting the parts

Every element is listed with its LEGO Element ID in the inventory at the back, and in parts/ as CSV and BrickLink XML files. See “Ordering the parts” on the last pages.

1

The display base

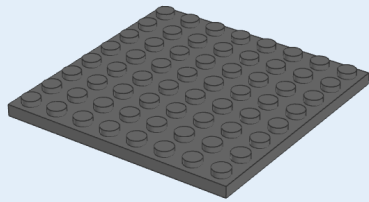

The base and the black band are the same for every kit in the collection. The lawn and the walk to the porch go on next.

Ordering the parts

1 · LEGO Pick a Brick (lego.com)

- 1. Go to **lego.com** → **Pick and Build** → **Pick a Brick** and choose **Upload list**.
- 2. Upload parts/pick_a_brick_upload.csv. It lists all 45 kinds of element by Element ID with their quantities, and fills your bag in one go.
- 3. If anything isn't matched, upload pick_a_brick_upload_retry.csv. It has LEGO's newer IDs for the same parts; many white parts got new IDs in 2025. Or search the inventory's design number and colour.
- 4. Bestseller elements can be ordered up to 999 at a time. Many Standard elements are limited to 10 per order. Every element in this kit was in Pick a Brick's Bestseller range, which ships from the US warehouse.

2 · BrickLink or Rebrickable (backup)

The files in parts/ cover anything Pick a Brick does not stock:

- bricklink_wanted_list.xml: BrickLink → Want → Upload.
- rebrickable_parts.csv: import it as a Rebrickable part list, then compare stores.
- pick_a_brick_mapping.csv: how each part maps to Pick a Brick, with the evidence, the last price seen and a BrickLink backup.

What it costs

At Pick a Brick prices seen in 2022–2025, the 244 elements with a known price come to about **US\$32**, plus shipping. LEGO raised prices on about a third of Pick a Brick elements in 2026, so expect to pay more. The bag total after uploading shows the current price.

Order a few spare 1×1 bricks and plates, because small parts go missing easily.

Substitutions

- **Ground:** any colour of tiles works for the base around the building.
- **Hidden parts:** bricks and plates inside the building can be any colour.

Colour names

In this booklet	LEGO name	BrickLink
White	White	White
