

BUILD INSTRUCTIONS

BoardWalk Inn

A mid-size display model in LEGO® bricks

597
pieces

26 × 19 cm
32 × 24 studs

Unofficial fan design

An unofficial fan-designed model (MOC), inspired by Disney's BoardWalk Inn at Walt Disney World. It is not affiliated with, sponsored or endorsed by The LEGO Group or Disney. LEGO® is a trademark of The LEGO Group.

About this model

The arrival front of the BoardWalk Inn, as a smaller version of the large build: the white entrance with its big round arch, a ring of gold dots where the sign's letters run over it, two dark portholes and the roofline rising in curved steps to a flat top, with a dark roof edge behind it; two towers on the roof with dark pyramid roofs and white spires; and on either side the inn itself, with a porch of white columns and a railing below two storeys of sea-green clapboard, under low dark hipped roofs. The drive with its red-and-blue painted curb runs into the arch between lamp posts and topiaries, and red flowers line the porches.

Pieces	597 elements, 74 kinds, 11 colours
Size	32 × 24 studs (25.6 × 19.2 cm), 17 cm tall
Scale	about 1:250 (one storey = 4 plates, 1 stud ≈ 2 m), like the large resort models
Build time	about 2 to 2½ hours
Model files	boardwalk_midsize.mpd (LDraw). Opens in BrickLink Studio, LeoCAD and LDCad.

How the build is organised

1. The display base, the lawns and the drive
2. The entrance
3. The towers (build 2)
4. The left wing
5. The right wing
6. The garden: lamp posts, topiaries and flowers

Every kit in the mid-size resort collection stands on the same 32×24 display base with a black front band. Each section starts with a list of the parts it needs.

Reading the steps

Parts added in each step are **outlined in orange**. The blue box shows the parts for that step and how many of each you need. Part pictures are drawn to scale; plates longer than 8 studs are drawn at half size.

Tips

- The front wall is two studs thick, so the arch has a deep reveal. The arch steps in with inverted slopes, then the raised 1×6 arch closes it; the sloped side of each inverted slope faces the middle of the arch.
- Each gold dot is a gold round brick on the side stud of a white brick in the inner row; it fills the gap left in the outer row. The two dark portholes are made the same way with black round bricks.
- The wings' clapboard is three sand green plates per storey. Put the black window bricks in first, then lay the plates around them one layer at a time; their joints are staggered.
- The two wings are mirror images, each with its own pages: the clapboard side with the windows faces out, and the side that stands against the entrance stays open.
- Slide each lamp's white globe down over the top of the black bar, until the bar's end is level with the top of the globe.
- A **"Build 2"** badge means you build that module twice.

Getting the parts

Every element is listed with its LEGO Element ID in the inventory at the back, and in parts/ as CSV and BrickLink XML files. See "Ordering the parts" on the last pages.

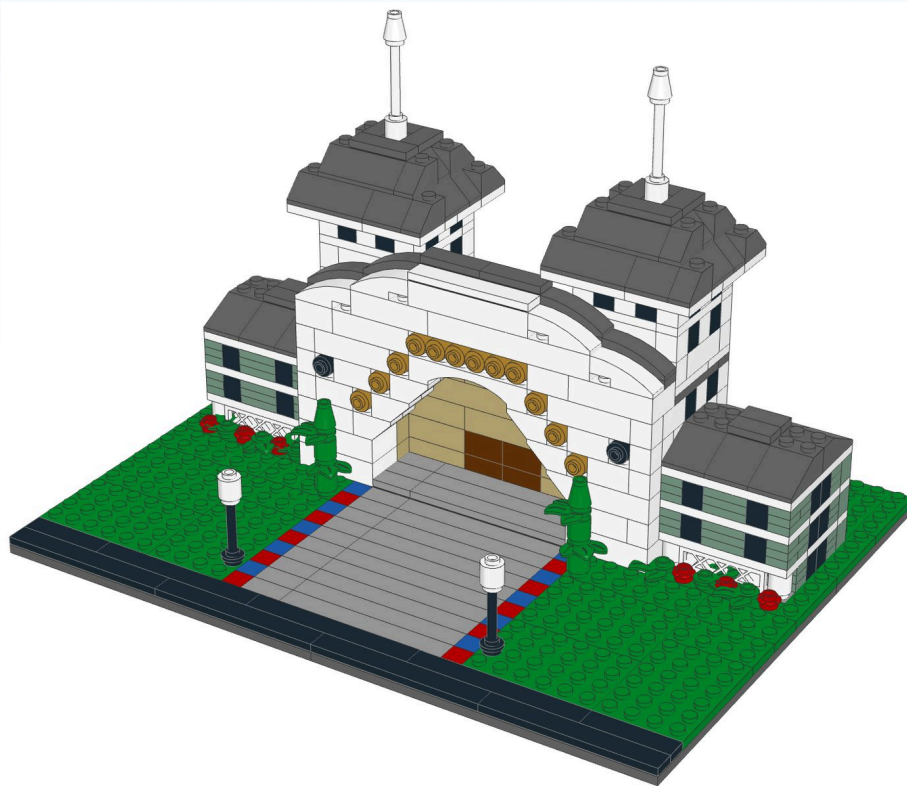

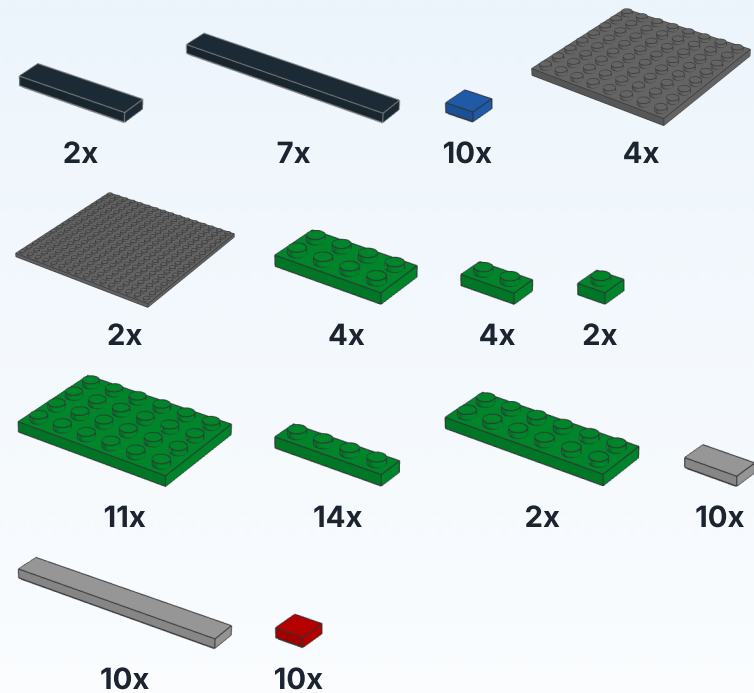

1

The display base

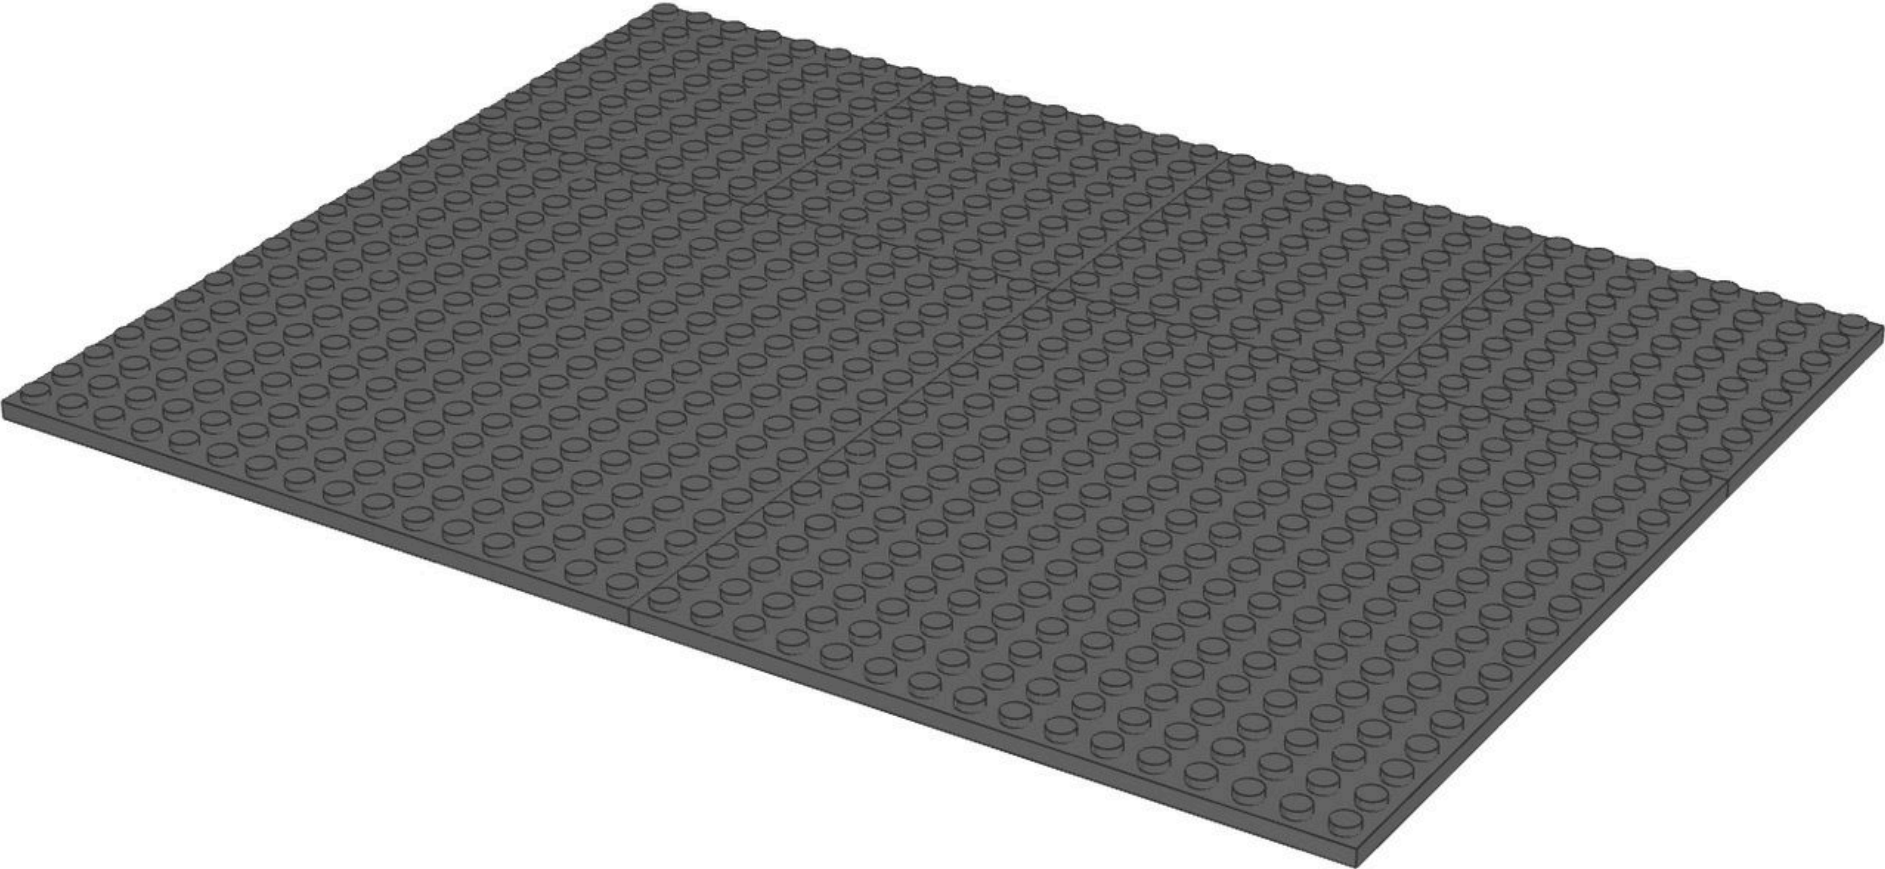

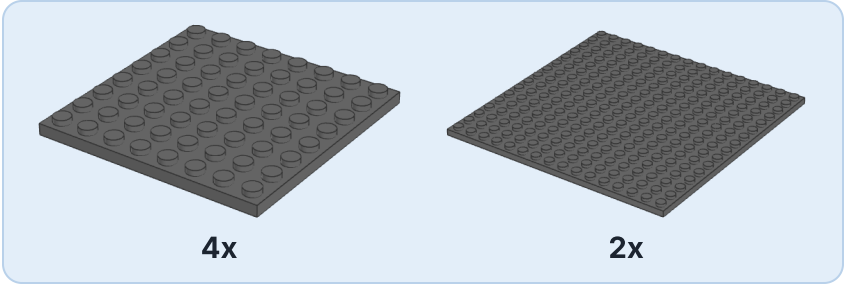

The base and the black band are the same for every mid-size kit. The lawns, the drive and its painted curb go on next.

92 elements in this section

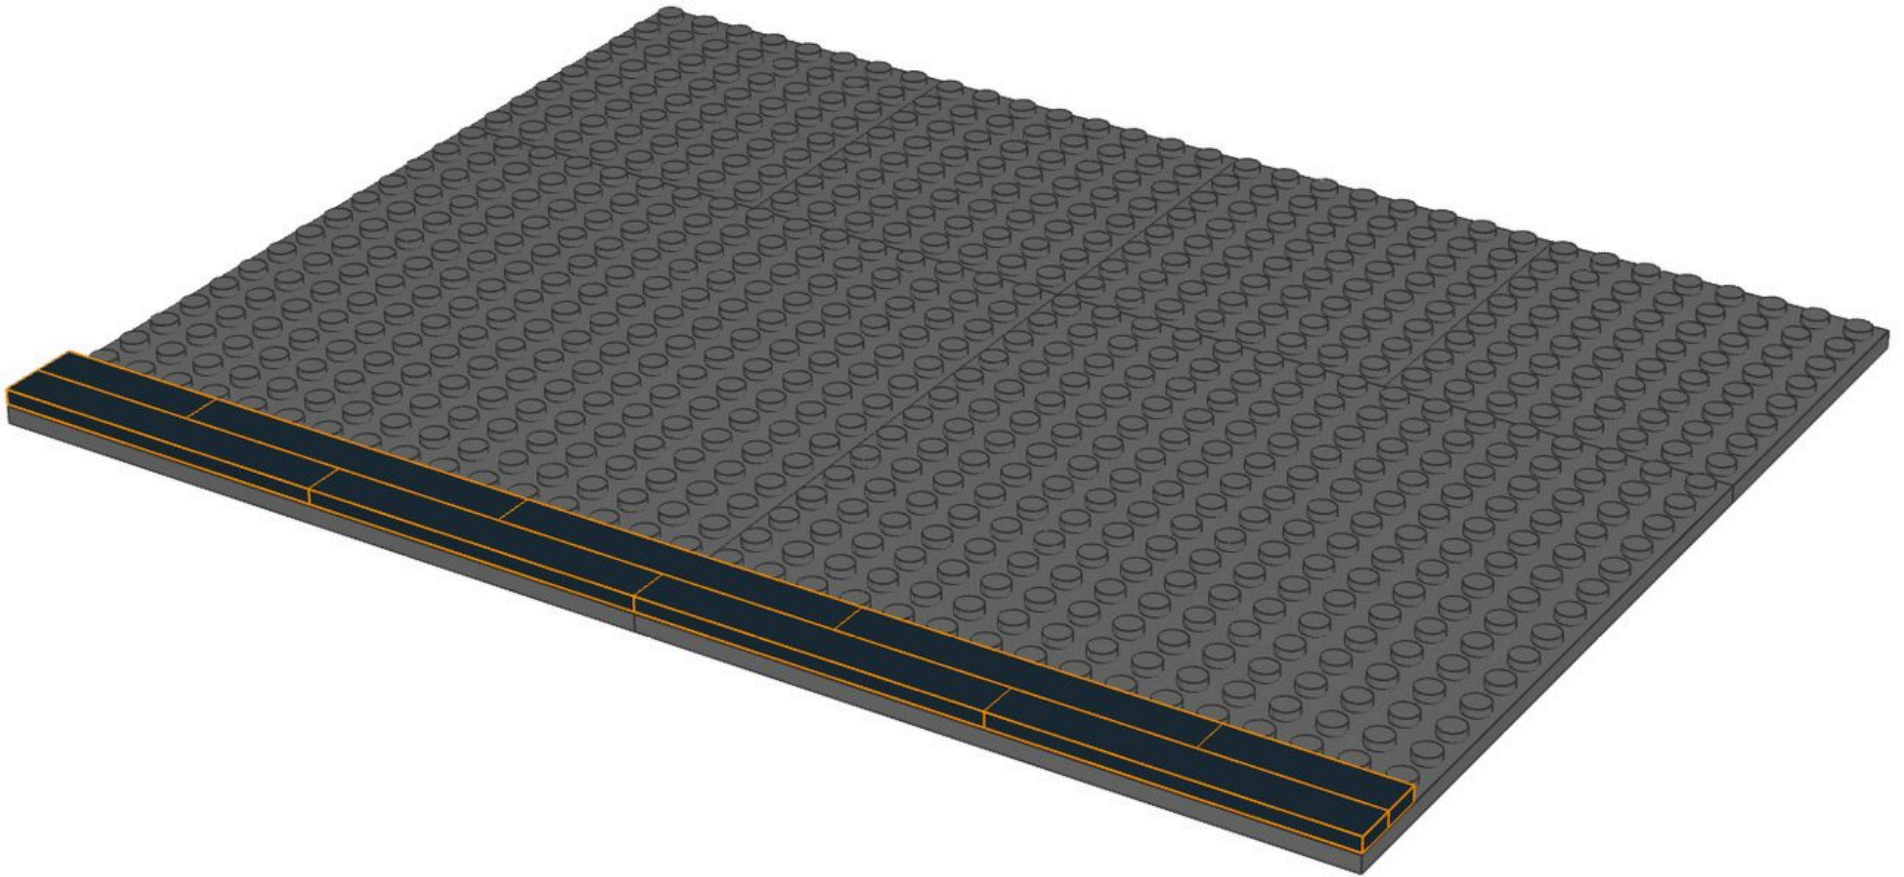

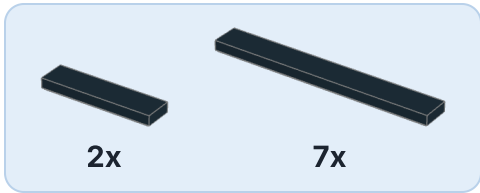

PARTS FOR THIS SECTION

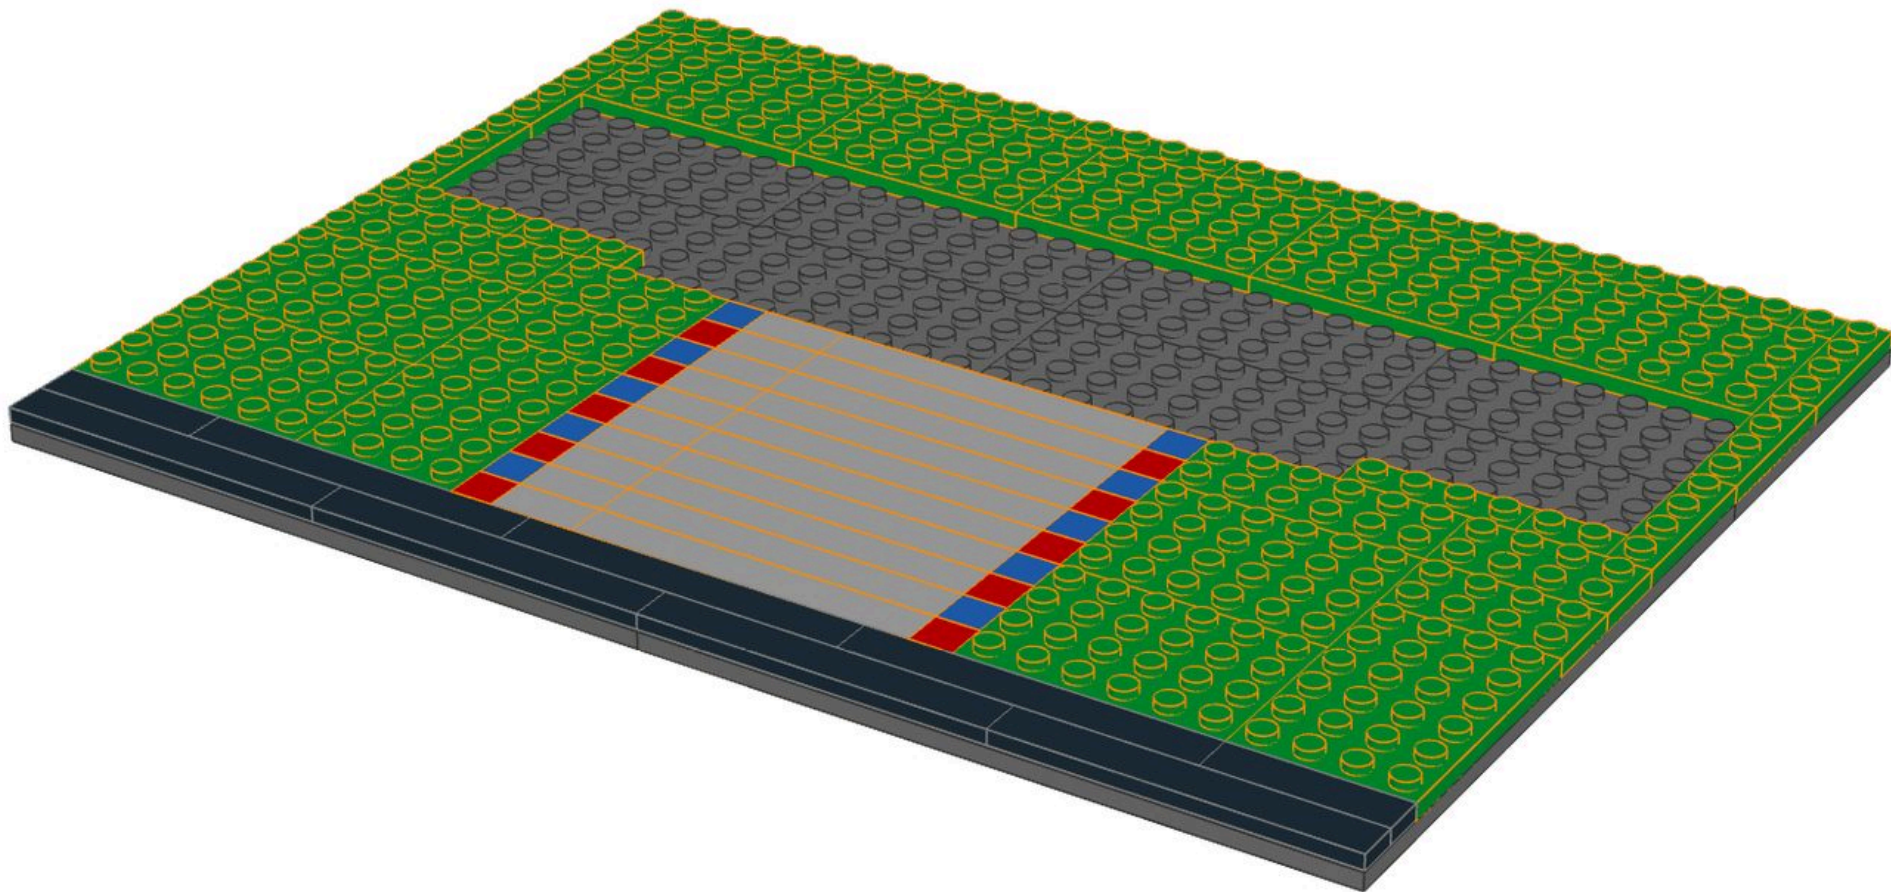

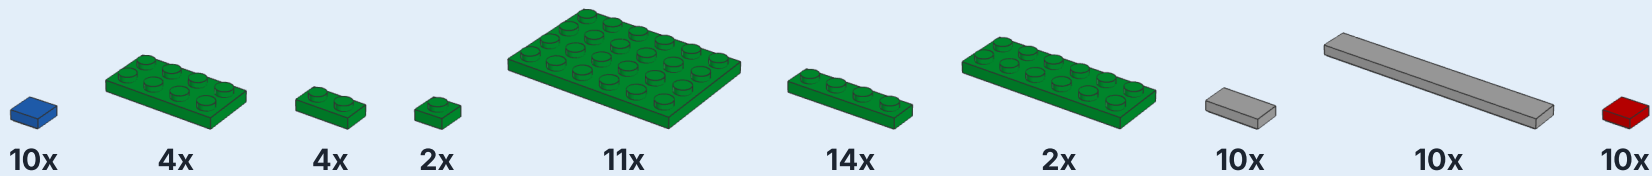

1

2

3

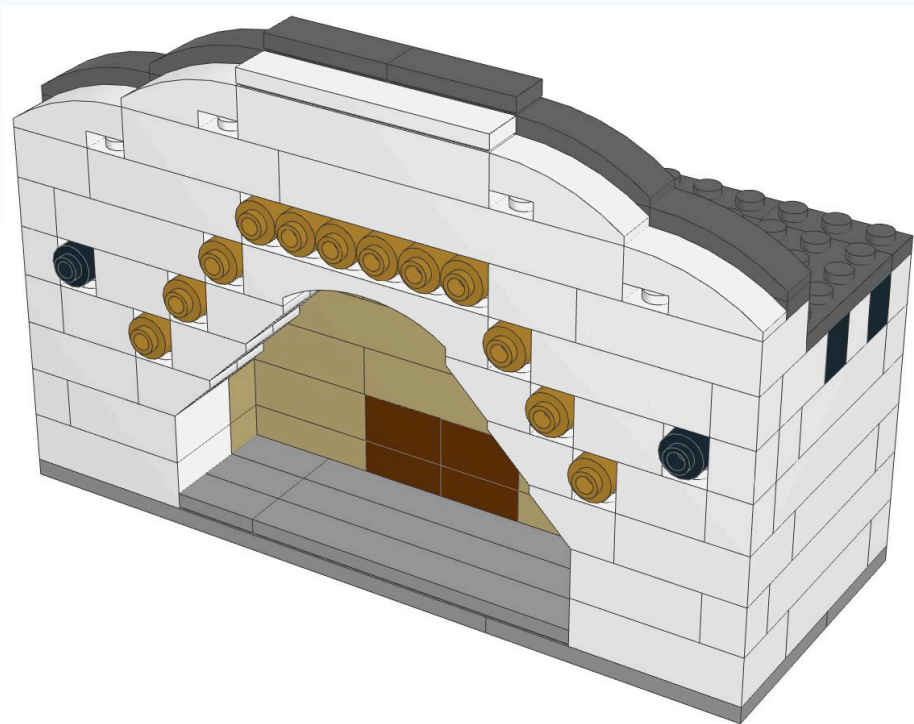

2

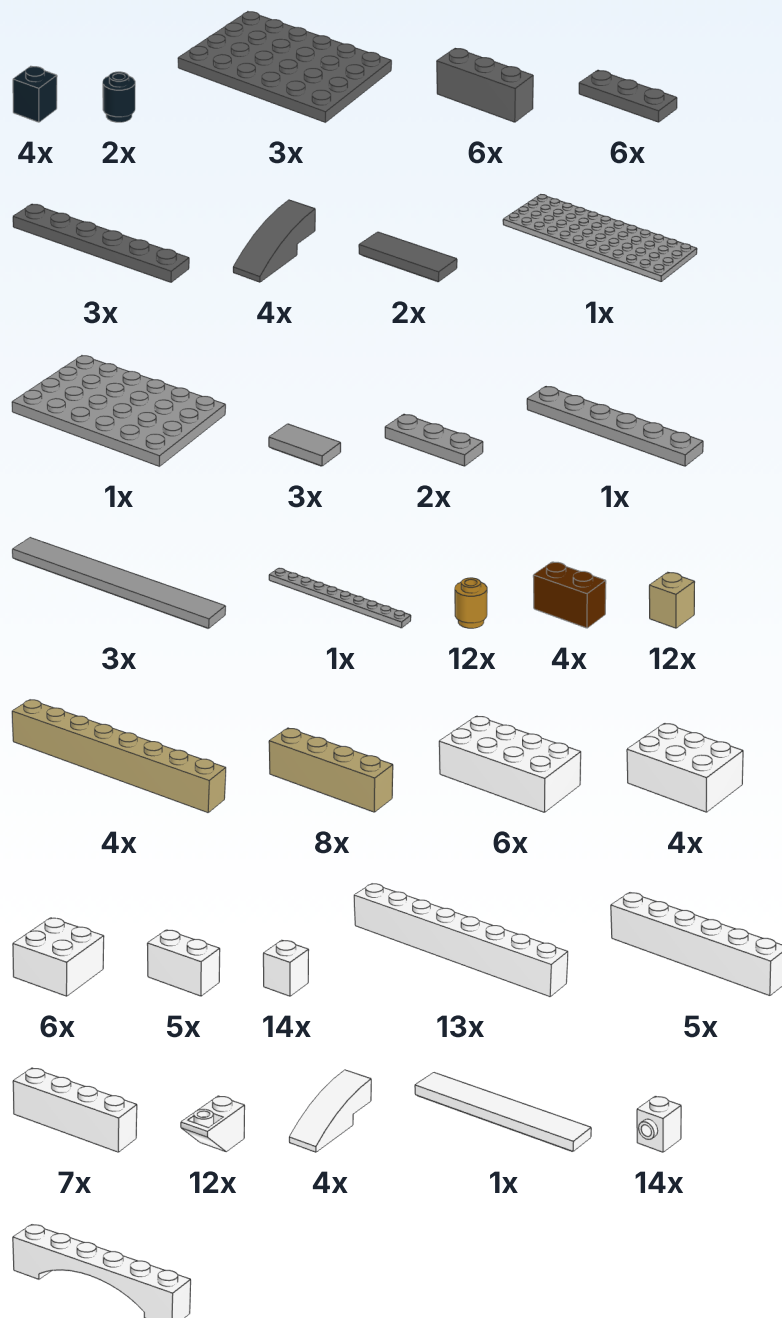

The entrance

The white front wall with the big round arch, the warm passage behind it, the gold dots of the sign, the roof deck, and the curved roofline with its dark edge.

Ordering the parts

1 · LEGO Pick a Brick (lego.com)

- 1. Go to **lego.com** → **Pick and Build** → **Pick a Brick** and choose **Upload list**.
- 2. Upload parts/pick_a_brick_upload.csv. It lists all 74 kinds of element by Element ID with their quantities, and fills your bag in one go.
- 3. If anything isn't matched, upload pick_a_brick_upload_retry.csv. It has LEGO's newer IDs for the same parts; many white parts got new IDs in 2025. Or search the inventory's design number and colour.
- 4. Bestseller elements can be ordered up to 999 at a time. Many Standard elements are limited to 10 per order. Every element in this kit was in Pick a Brick's Bestseller range, which ships from the US warehouse.

2 · BrickLink or Rebrickable (backup)

The files in parts/ cover anything Pick a Brick does not stock:

- bricklink_wanted_list.xml: BrickLink → Want → Upload.
- rebrickable_parts.csv: import it as a Rebrickable part list, then compare stores.
- pick_a_brick_mapping.csv: how each part maps to Pick a Brick, with the evidence, the last price seen and a BrickLink backup.

What it costs

At Pick a Brick prices seen in 2022–2025, the 597 elements with a known price come to about **US\$78**, plus shipping. LEGO raised prices on about a third of Pick a Brick elements in 2026, so expect to pay more. The bag total after uploading shows the current price.

Order a few spare 1×1 bricks and plates, because small parts go missing easily.

Substitutions

- **Ground:** any colour of tiles works for the base around the building.
- **Hidden parts:** bricks and plates inside the building can be any colour.

Colour names

In this booklet	LEGO name	BrickLink
White	White	White
Sand Green	Sand Green	Sand Green
Dark Bluish Gray	Dark Stone Grey	Dark Bluish Gray
Pearl Gold	Warm Gold	Pearl Gold
