A compact display model in LEGO® bricks

Unofficial fan design

An unofficial fan-designed model (MOC), inspired by Disney's Art of Animation Resort at Walt Disney World. It is not affiliated with, sponsored or endorsed by The LEGO Group or Disney. LEGO® is a trademark of The LEGO Group.

About this model

Animation Hall, the resort's lobby building: a modern white hall with a grid of big coloured window panels, a taller glass atrium under a white barrel roof over the entrance, and a flat white canopy in front. Out front stand two generic animation icons: a giant pencil and three pots of paint. The resort's character areas, its guest buildings themed on animated films, are left out on purpose: no characters, character vehicles or character buildings appear, so this kit is less recognisable than the others in the collection.

Pieces	222 elements, 49 kinds, 13 colours
Size	24 × 16 studs (19.2 × 12.8 cm), 9 cm tall
Scale	about 1:250 (one storey = 4 plates, 1 stud ≈ 2 m), like the large resort models
Build time	about 1 to 1½ hours
Model files	art_of_animation_compact.mpd (LDraw). Opens in BrickLink Studio, LeoCAD and LDCad.

How the build is organised

1. The display base and the lawn
2. Animation Hall
3. The giant pencil
4. The paint pots
5. The palm

Every kit in the compact resort collection stands on the same 24×16 display base with a black front band. Each section starts with a list of the parts it needs.

Reading the steps

Parts added in each step are **outlined in orange**. The blue box shows the parts for that step and how many of each you need. Part pictures are drawn to scale; plates longer than 8 studs are drawn at half size.

Tips

- The window panels are 1×2 bricks in four colours. Lay out each storey's colours before you start it.
- The glass is 1×2 clear bricks without a centre tube. Press them on gently.
- The pencil's tip stands half a stud off the grid, on the centre stud of the tan plate.

Getting the parts

Every element is listed with its LEGO Element ID in the inventory at the back, and in parts/ as CSV and BrickLink XML files. See “Ordering the parts” on the last pages.

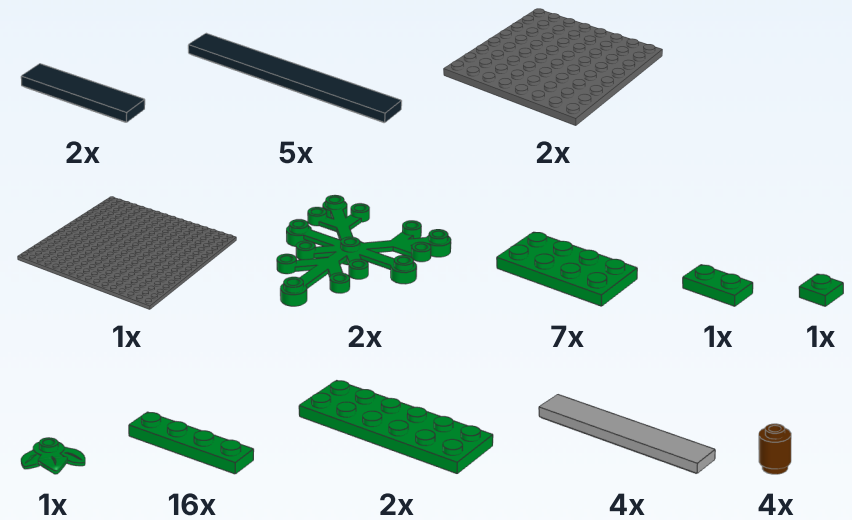

1

The display base

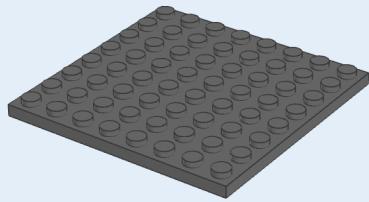

The base and the black band are the same for every kit in the collection. The lawn and the drive to the entrance go on next.

Ordering the parts

1 • LEGO Pick a Brick (lego.com)

1. Go to **lego.com** → **Pick and Build** → **Pick a Brick** and choose **Upload list**.
2. Upload parts/pick_a_brick_upload.csv. It lists all 49 kinds of element by Element ID with their quantities, and fills your bag in one go.
3. If anything isn't matched, upload pick_a_brick_upload_retry.csv. It has LEGO's newer IDs for the same parts; many white parts got new IDs in 2025. Or search the inventory's design number and colour.
4. Bestseller elements can be ordered up to 999 at a time. Many Standard elements are limited to 10 per order. Every element in this kit was in Pick a Brick's Bestseller range, which ships from the US warehouse.

2 • BrickLink or Rebrickable (backup)

The files in parts/ cover anything Pick a Brick does not stock:

- bricklink_wanted_list.xml: BrickLink → Want → Upload.
- rebrickable_parts.csv: import it as a Rebrickable part list, then compare stores.
- pick_a_brick_mapping.csv: how each part maps to Pick a Brick, with the evidence, the last price seen and a BrickLink backup.

What it costs

At Pick a Brick prices seen in 2022–2025, the 222 elements with a known price come to about **US\$31**, plus shipping. LEGO raised prices on about a third of Pick a Brick elements in 2026, so expect to pay more. The bag total after uploading shows the current price.

Order a few spare 1×1 bricks and plates, because small parts go missing easily.

Substitutions

- **Ground:** any colour of tiles works for the base around the building.
- **Hidden parts:** bricks and plates inside the building can be any colour.
