

BUILD INSTRUCTIONS

Beach Club Resort

A compact display model in LEGO® bricks

364
pieces

19 × 13 cm
24 × 16 studs

Unofficial fan design

An unofficial fan-designed model (MOC), inspired by Disney's Beach Club Resort at Walt Disney World. It is not affiliated with, sponsored or endorsed by The LEGO Group or Disney. LEGO® is a trademark of The LEGO Group.

About this model

The Beach Club as a seaside Victorian beach cottage: pale sea-green clapboard with crisp white trim, a taller centre with a pink-and-white striped entrance awning, a light grey hipped roof and a white spire, two low wings with white verandas and railings, and a turret with a pointed cap at each end, on a sandy beach by the lake with beach umbrellas and a palm.

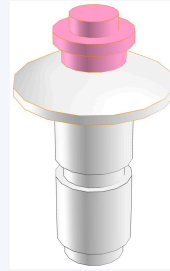

Pieces	364 elements, 42 kinds, 10 colours
Size	24 × 16 studs (19.2 × 12.8 cm), 10 cm tall
Scale	about 1:250 (one storey = 4 plates, 1 stud ≈ 2 m), like the large resort models
Build time	about 1 to 1½ hours
Model files	beach_club_compact.mpd (LDraw). Opens in BrickLink Studio, LeoCAD and LDCad.

How the build is organised

1. The display base, the beach and the lake
2. The centre
3. The wings (build 2)
4. The turrets (build 2)
5. The palm and the beach umbrellas

Every kit in the compact resort collection stands on the same 24×16 display base with a black front band. Each section starts with a list of the parts it needs.

Reading the steps

Parts added in each step are **outlined in orange**. The blue box shows the parts for that step and how many of each you need. Part pictures are drawn to scale; plates longer than 8 studs are drawn at half size.

Tips

- Each storey is one course of sand green bricks with black bricks for the windows, then a band of white plates.
- Roofs go up one row of slopes at a time. The turret caps are four steep slopes laid round a white round brick, like the blades of a pinwheel.
- The spire on the centre and the umbrella canopies sit on a single centre stud.
- A **“Build 2”** badge means you build that module twice.

Getting the parts

Every element is listed with its LEGO Element ID in the inventory at the back, and in parts/ as CSV and BrickLink XML files. See “Ordering the parts” on the last pages.

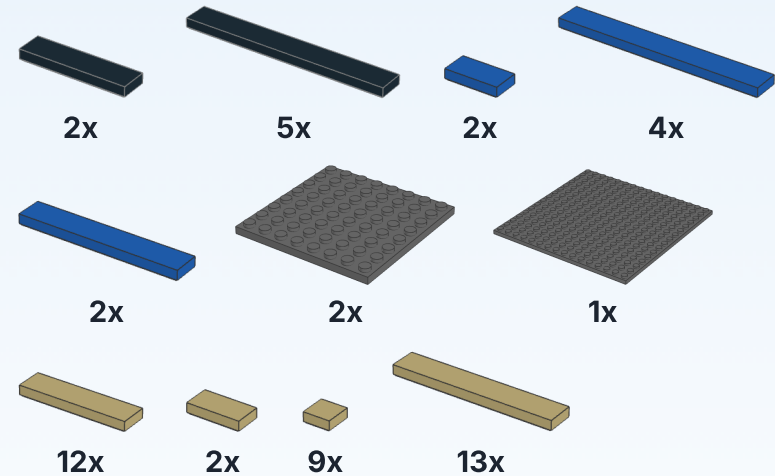

1

The display base

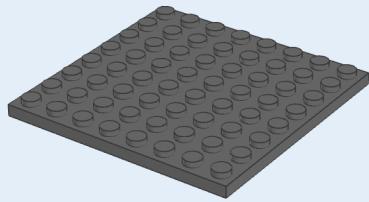

The base and the black band are the same for every kit in the collection. The beach and the lake go on next.

54 elements in this section

Ordering the parts

1 · LEGO Pick a Brick (lego.com)

1. Go to **lego.com** → **Pick and Build** → **Pick a Brick** and choose **Upload list**.
2. Upload parts/pick_a_brick_upload.csv. It lists all 42 kinds of element by Element ID with their quantities, and fills your bag in one go.
3. If anything isn't matched, upload pick_a_brick_upload_retry.csv. It has LEGO's newer IDs for the same parts; many white parts got new IDs in 2025. Or search the inventory's design number and colour.
4. Bestseller elements can be ordered up to 999 at a time. Many Standard elements are limited to 10 per order. Every element in this kit was in Pick a Brick's Bestseller range, which ships from the US warehouse.

2 · BrickLink or Rebrickable (backup)

The files in parts/ cover anything Pick a Brick does not stock:

- bricklink_wanted_list.xml: BrickLink → Want → Upload.
- rebrickable_parts.csv: import it as a Rebrickable part list, then compare stores.
- pick_a_brick_mapping.csv: how each part maps to Pick a Brick, with the evidence, the last price seen and a BrickLink backup.

What it costs

At Pick a Brick prices seen in 2022–2025, the 364 elements with a known price come to about **US\$42**, plus shipping. LEGO raised prices on about a third of Pick a Brick elements in 2026, so expect to pay more. The bag total after uploading shows the current price.

Order a few spare 1×1 bricks and plates, because small parts go missing easily.

Substitutions

- **Walls:** sand green is a Bestseller as 1×1, 1×2, 1×4 and 1×6 bricks only; keep to those sizes.
- **Ground:** any colour of tiles works for the base around the building.
- **Hidden parts:** bricks and plates inside the building can be any colour.

Colour names

In this booklet	LEGO name	BrickLink
