

BUILD INSTRUCTIONS

Contemporary Resort

A compact display model in LEGO® bricks

278
pieces

19 × 13 cm
24 × 16 studs

Unofficial fan design

An unofficial fan-designed model (MOC), inspired by Disney's Contemporary Resort at Walt Disney World. It is not affiliated with, sponsored or endorsed by The LEGO Group or Disney. LEGO® is a trademark of The LEGO Group.

About this model

The front end of the Contemporary's A-frame tower: a tall white trapezoid of glass and frame whose long sides step up in rows of dark balconies, with the monorail beam running straight through the building halfway up and a white monorail train with a blue stripe coming out of the front. Two palms stand on the lawn.

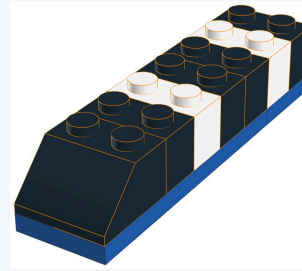

Pieces	278 elements, 44 kinds, 7 colours
Size	24 × 16 studs (19.2 × 12.8 cm), 14 cm tall
Scale	about 1:250 (one storey = 4 plates, 1 stud ≈ 2 m), like the large resort models
Build time	about 1 to 1½ hours
Model files	contemporary_compact.mpd (LDraw). Opens in BrickLink Studio, LeoCAD and LDCad.

How the build is organised

1. The display base and the lawn
2. The A-frame tower
3. The monorail and the palms (build 2)

Every kit in the compact resort collection stands on the same 24×16 display base with a black front band. Each section starts with a list of the parts it needs.

Reading the steps

Parts added in each step are **outlined in orange**. The blue box shows the parts for that step and how many of each you need. Part pictures are drawn to scale; plates longer than 8 studs are drawn at half size.

Tips

- Each storey is one course of bricks, then a band of white plates. The end walls are white at the edges and black (the glass) in between; the long sides are dark grey (the balconies). Keep the three colours in separate trays.
- Every second storey is a stud narrower on both sides. The white tiles on each step are the balcony fronts.
- The monorail beam is built into the tower before the fifth storey, so the train can run straight through it.
- A **"Build 2"** badge means you build that module twice.

Getting the parts

Every element is listed with its LEGO Element ID in the inventory at the back, and in parts/ as CSV and BrickLink XML files. See "Ordering the parts" on the last pages.

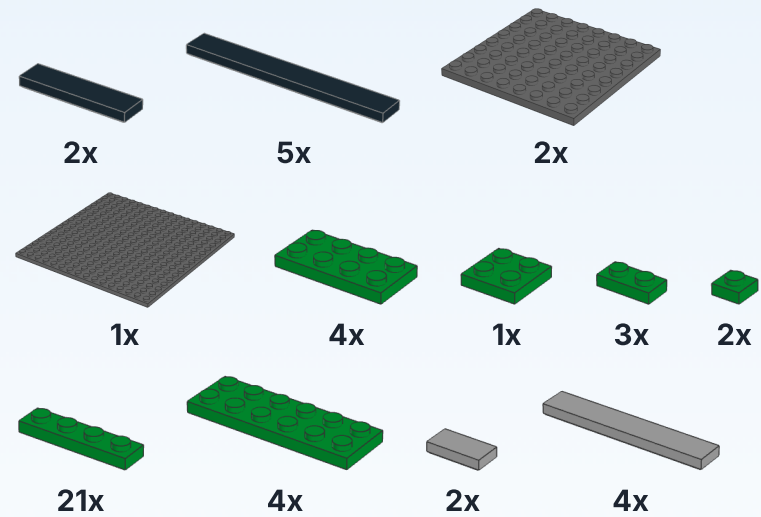

1

The display base

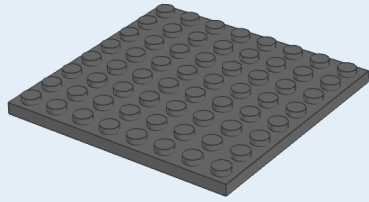

The base and the black band are the same for every kit in the collection. The lawn and a grey forecourt under the monorail go on next.

2

The A-frame tower

Nine storeys; every second one is a stud narrower on both sides. The monorail beam goes in halfway up, before the fifth storey, and a glass top floor finishes the roof.

Ordering the parts

1 • LEGO Pick a Brick (lego.com)

1. Go to **lego.com** → **Pick and Build** → **Pick a Brick** and choose **Upload list**.
2. Upload parts/pick_a_brick_upload.csv. It lists all 44 kinds of element by Element ID with their quantities, and fills your bag in one go.
3. If anything isn't matched, upload pick_a_brick_upload_retry.csv. It has LEGO's newer IDs for the same parts; many white parts got new IDs in 2025. Or search the inventory's design number and colour.
4. Bestseller elements can be ordered up to 999 at a time. Many Standard elements are limited to 10 per order. Every element in this kit was in Pick a Brick's Bestseller range, which ships from the US warehouse.

2 • BrickLink or Rebrickable (backup)

The files in parts/ cover anything Pick a Brick does not stock:

- bricklink_wanted_list.xml: BrickLink → Want → Upload.
- rebrickable_parts.csv: import it as a Rebrickable part list, then compare stores.
- pick_a_brick_mapping.csv: how each part maps to Pick a Brick, with the evidence, the last price seen and a BrickLink backup.

What it costs

At Pick a Brick prices seen in 2022–2025, the 278 elements with a known price come to about **US\$43**, plus shipping. LEGO raised prices on about a third of Pick a Brick elements in 2026, so expect to pay more. The bag total after uploading shows the current price.

Order a few spare 1×1 bricks and plates, because small parts go missing easily.

Substitutions

- **Ground:** any colour of tiles works for the base around the building.
- **Hidden parts:** bricks and plates inside the building can be any colour.

Colour names

In this booklet	LEGO name	BrickLink
White	White	White
Black	Black	Black
Dark Bluish Gray	Dark Stone Grey	Dark Bluish Gray
Light Bluish Gray	Medium Stone Grey	Light Bluish Gray
