

BUILD INSTRUCTIONS

All-Star Sports Resort

A compact display model in LEGO® bricks

240
pieces

19 × 13 cm
24 × 16 studs

Unofficial fan design

An unofficial fan-designed model (MOC), inspired by Disney's All-Star Sports Resort at Walt Disney World. It is not affiliated with, sponsored or endorsed by The LEGO Group or Disney. LEGO® is a trademark of The LEGO Group.

About this model

A short section of an All-Star Sports guest building: three bright storeys with open walkways behind teal railings under a red and yellow roof trim, with giant sports icons at its ends: a stair tower clad with three tall surfboards, and a giant tennis racket.

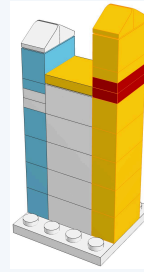

Pieces	240 elements, 48 kinds, 8 colours
Size	24 × 16 studs (19.2 × 12.8 cm), 8 cm tall
Scale	about 1:250 (one storey = 4 plates, 1 stud ≈ 2 m), like the large resort models
Build time	about 1 to 1½ hours
Model files	all_star_sports_compact.mpd (LDraw). Opens in BrickLink Studio, LeoCAD and LDCad.

How the build is organised

1. The display base and the lawn
2. The guest building
3. The surfboards
4. The tennis racket

Every kit in the compact resort collection stands on the same 24×16 display base with a black front band. Each section starts with a list of the parts it needs.

Reading the steps

Parts added in each step are **outlined in orange**. The blue box shows the parts for that step and how many of each you need. Part pictures are drawn to scale; plates longer than 8 studs are drawn at half size.

Tips

- Each storey is one course of white bricks with black bricks for the doors and windows, then a band of plates. Along the front the band is teal: it is the walkway, with a teal railing on its edge.
- Each surfboard is a stack of 1 × 2 bricks with a stripe and a pointed nose of two small slopes. Two of them face the sides of the stair core.
- The racket strings are white bricks with grooves.

Getting the parts

Every element is listed with its LEGO Element ID in the inventory at the back, and in parts/ as CSV and BrickLink XML files. See “Ordering the parts” on the last pages.

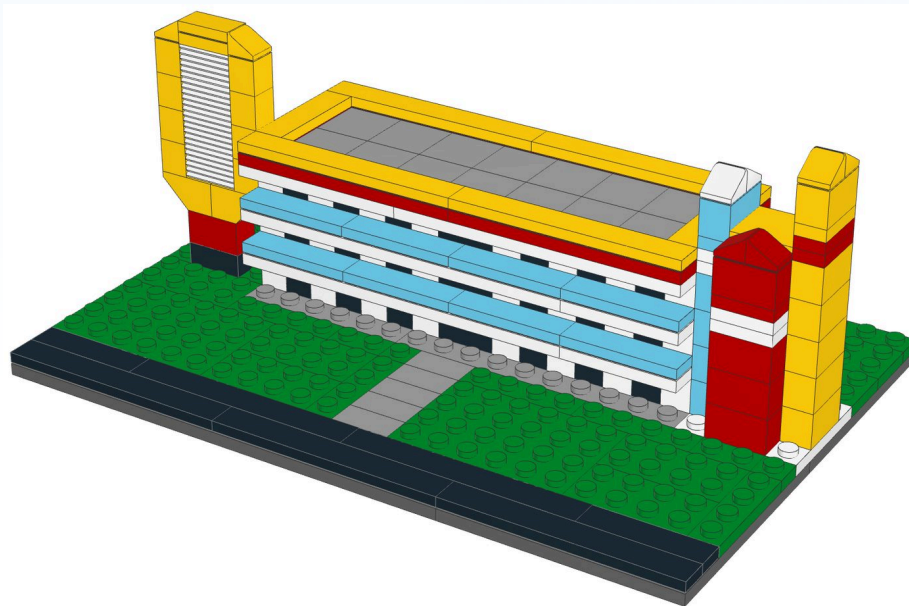

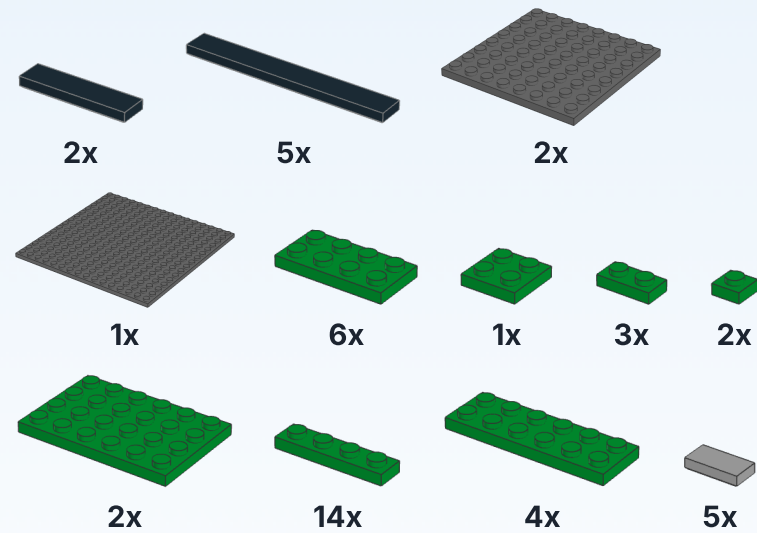

1

The display base

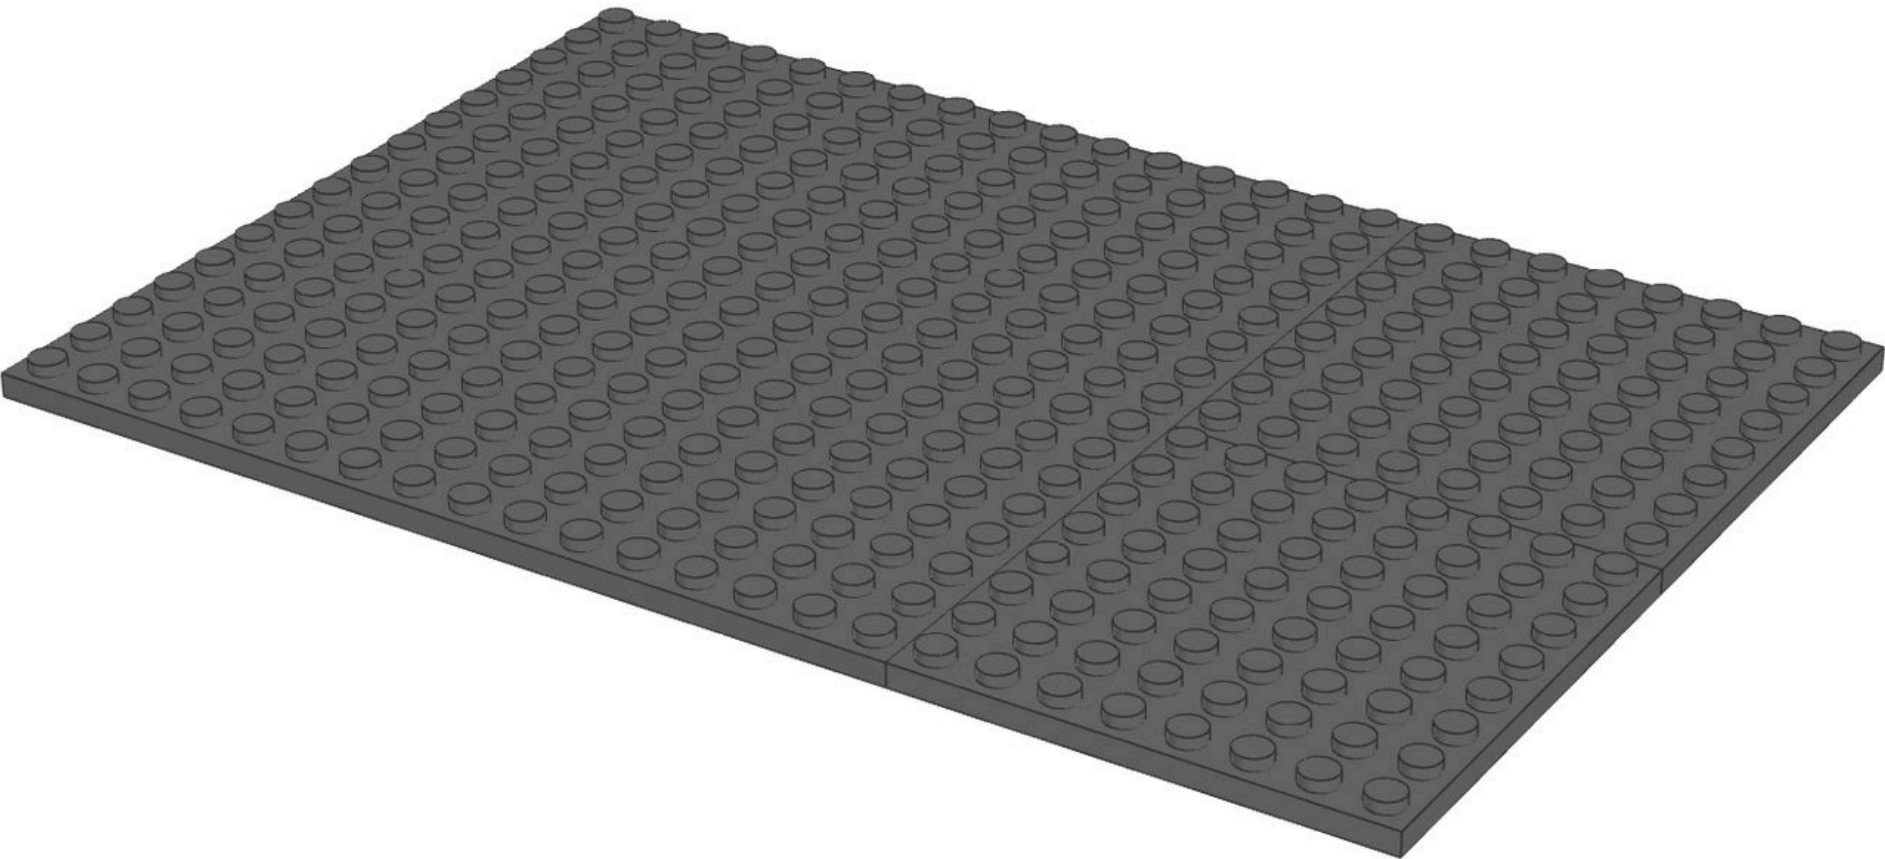

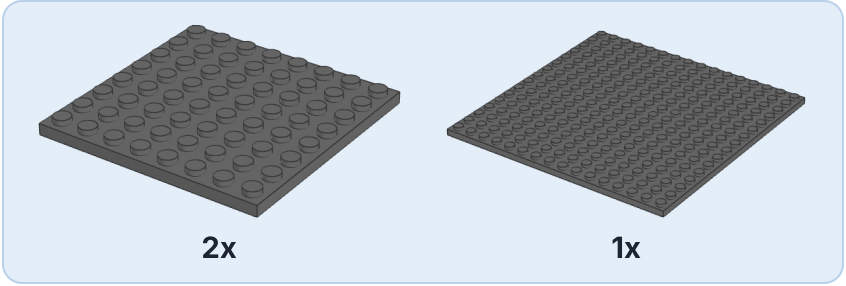

The base and the black band are the same for every kit in the collection. The lawn and the walk to the building go on next.

Ordering the parts

1 · LEGO Pick a Brick (lego.com)

1. Go to **lego.com** → **Pick and Build** → **Pick a Brick** and choose **Upload list**.
2. Upload parts/pick_a_brick_upload.csv. It lists all 48 kinds of element by Element ID with their quantities, and fills your bag in one go.
3. If anything isn't matched, upload pick_a_brick_upload_retry.csv. It has LEGO's newer IDs for the same parts; many white parts got new IDs in 2025. Or search the inventory's design number and colour.
4. Bestseller elements can be ordered up to 999 at a time. Many Standard elements are limited to 10 per order. Every element in this kit was in Pick a Brick's Bestseller range, which ships from the US warehouse.

2 · BrickLink or Rebrickable (backup)

The files in parts/ cover anything Pick a Brick does not stock:

- bricklink_wanted_list.xml: BrickLink → Want → Upload.
- rebrickable_parts.csv: import it as a Rebrickable part list, then compare stores.
- pick_a_brick_mapping.csv: how each part maps to Pick a Brick, with the evidence, the last price seen and a BrickLink backup.

What it costs

At Pick a Brick prices seen in 2022–2025, the 240 elements with a known price come to about **US\$31**, plus shipping. LEGO raised prices on about a third of Pick a Brick elements in 2026, so expect to pay more. The bag total after uploading shows the current price.

Order a few spare 1×1 bricks and plates, because small parts go missing easily.

Substitutions

- **Ground:** any colour of tiles works for the base around the building.
- **Hidden parts:** bricks and plates inside the building can be any colour.

Colour names

In this booklet	LEGO name	BrickLink
White	White	White
Red	Bright Red	Red
Yellow	Bright Yellow	Yellow
Medium Azure	Medium Azur	Medium Azure
Black	Black	Black
Light Bluish Gray	Medium Stone Grey	Light Bluish Gray
Green	Dark Green	Green
