BUILD INSTRUCTIONS

Brick Portrait: Couple

423 pieces

18 cm tall

Two brick-built portrait figures on a white display base, in LEGO® bricks

Unofficial fan design

An unofficial fan-designed model (MOC). It is not affiliated with, sponsored or endorsed by The LEGO Group. LEGO® is a trademark of The LEGO Group. A portrait figure is a likeness made with its subject's permission.

About this model

Two brick-built portrait figures of a couple, side by side on a white display base: big near-cube heads with tiled faces and brick-built hair, short necks, blocky torsos with the outfits in tiles, arms with hands, legs and shoes. On the left, the woman, with wavy reddish-brown hair to her shoulders, a black top with a white V-neck, dark red trousers and black shoes with white toe caps. On the right, the man, with spiky black hair and a black beard, a navy blazer over a pink shirt and magenta tie, tan trousers and reddish-brown shoes. A red and a pink heart are set into the base.

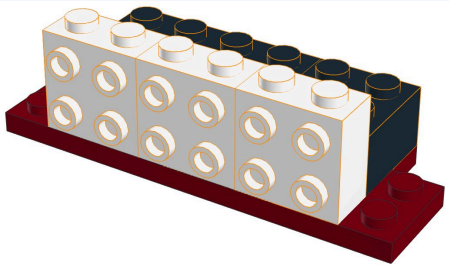

Pieces	423 elements, 93 kinds, 11 colours
Size	22 × 12-stud base (17.6 × 9.6 cm); the figures are 17 and 18 cm tall
Figures	two, each 8 studs wide with a 6 × 6-stud tiled face
Build time	about 2 hours
Model files	`brick_portrait_couple.mpd` (LDraw). Opens in BrickLink Studio, LeoCAD and LDCad.

How the build is organised

1. The display base, with its two tile hearts
2. The woman: shoes and legs, torso, arms, shoulders, head and hair
3. The man: shoes and legs, torso, arms, shoulders, head and hair

Each figure is built from the feet up. Its torso, head and hair are built on their own and then set in place; the shoes, legs and arms are small modules you build twice. Every section starts with a list of the parts it needs.

Reading the steps

Parts added in each step are **outlined in orange**. The blue box shows the parts for that step and how many of each you need. Part pictures are drawn to scale; plates longer than 8 studs are drawn at half size.

Tips

- The faces and the torso fronts are built on side studs: plates press onto the studs on the front of the side-stud bricks, and tiles go on the plates. Press each plate on firmly before you add its tiles.
- Quarter-round tiles make the curves of the brows, the smile, the beard, the V-neck and the tie. Turn each one the way the picture shows.
- A **“Build 2”** badge means you build that module twice: the shoes, the legs and the arms.
- The hair is built on its own and goes on last. Hold it level over the head and press it down evenly: it sits on the front of the head, the inner post and the floor plate (and, for the woman, on her shoulders).

Getting the parts

Every element is listed with its LEGO Element ID in the inventory at the back, and in `parts/` as CSV and BrickLink XML files. See “Ordering the parts” on the last pages.

1

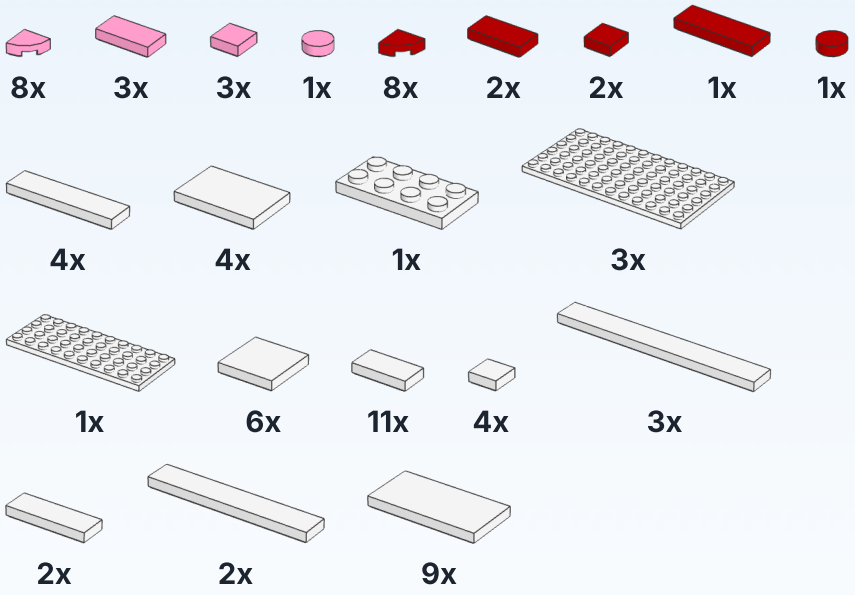

The display base

White plates, then white tiles with a red and a pink heart. The shoes stand on the bare studs.

Ordering the parts

1 · LEGO Pick a Brick (lego.com)

1. Go to **lego.com → Pick and Build → Pick a Brick** and choose **Upload list**.
2. Upload `parts/pick_a_brick_upload.csv`. It lists all 93 kinds of element by Element ID with their quantities, and fills your bag in one go.
3. If anything isn't matched, upload `pick_a_brick_upload_retry.csv`. It has LEGO's newer IDs for the same parts; many white parts got new IDs in 2025. Or search the inventory's design number and colour.
4. Bestseller elements can be ordered up to 999 at a time. Many Standard elements are limited to 10 per order. Every element in this kit is on Pick a Brick's Bestseller list, which sells up to 999 of an element per order.

2 · BrickLink or Rebrickable (backup)

The files in `parts/` cover anything Pick a Brick does not stock:

- `bricklink_wanted_list.xml`: BrickLink → Want → Upload.
- `rebrickable_parts.csv`: import it as a Rebrickable part list, then compare stores.
- `pick_a_brick_mapping.csv`: how each part maps to Pick a Brick, with the evidence, the last price seen and a BrickLink backup.

What it costs

At Pick a Brick prices seen in 2022–2025, the 368 elements with a known price come to about **US$44**, plus shipping. LEGO raised prices on about a third of Pick a Brick elements in 2026, so expect to pay more. The bag total after uploading shows the current price.

Order a few spare 1×1 bricks and plates, because small parts go missing easily.

Substitutions

- **Hidden parts:** the side-stud bricks behind the faces and torso fronts, the inner post of each head and the plates under the face tiles can be any colour.
- **Base:** any white plates that cover 22 × 12 studs, tiled except under the shoes.
- **Faces:** an optional printed face sticker (48 × 48 mm) can go over the tiled face; it is not a LEGO part.
