BUILD INSTRUCTIONS

Brick Portrait: Single

255 pieces

17 cm tall

A brick-built portrait figure with a photo frame on an easel, in LEGO® bricks

Unofficial fan design

An unofficial fan-designed model (MOC). It is not affiliated with, sponsored or endorsed by The LEGO Group. LEGO® is a trademark of The LEGO Group. A portrait figure is a likeness made with its subject's permission.

About this model

A brick-built portrait figure beside a small photo frame on a white display base: a big near-cube head with a tiled face and long blonde hair falling past the shoulders, a red V-neck dress with bare arms, and black shoes. Beside her, a white frame on a tan easel holds a flat tiled area, 4.8 cm square, for a printed photo (an optional extra, not a LEGO part).

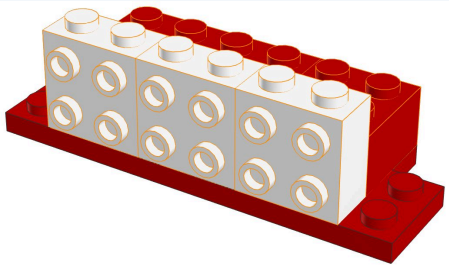

Pieces	255 elements, 67 kinds, 7 colours
Size	20 × 10-stud base (16 × 8 cm); the figure is 17 cm tall
Figure	8 studs wide, the hair 10, with a 6 × 6-stud tiled face
Build time	about 1½ hours
Model files	`brick_portrait_single.mpd` (LDraw). Opens in BrickLink Studio, LeoCAD and LDCad.

How the build is organised

1. The display base
2. The figure: shoes, skirt, torso, arms, shoulders, head and hair
3. The photo frame on its easel

The figure is built from the feet up. Its skirt, torso, head and hair are built on their own and then set in place; the shoes and arms are small modules you build twice. Every section starts with a list of the parts it needs.

Reading the steps

Parts added in each step are **outlined in orange**. The blue box shows the parts for that step and how many of each you need. Part pictures are drawn to scale; plates longer than 8 studs are drawn at half size.

Tips

- The face, the dress front and the photo area are built on side studs: plates press onto the studs on the front of the side-stud bricks, and tiles go on the plates. Press each plate on firmly before you add its tiles.
- Quarter-round tiles make the curves of the brows, the smile, the hairline and the V-neck. Turn each one the way the picture shows.
- A **“Build 2”** badge means you build that module twice: the shoes and the arms.
- The hair is built on its own and goes on last. Hold it level over the head and press it down evenly: it sits on the front of the head, the inner post and the shoulders.

Getting the parts

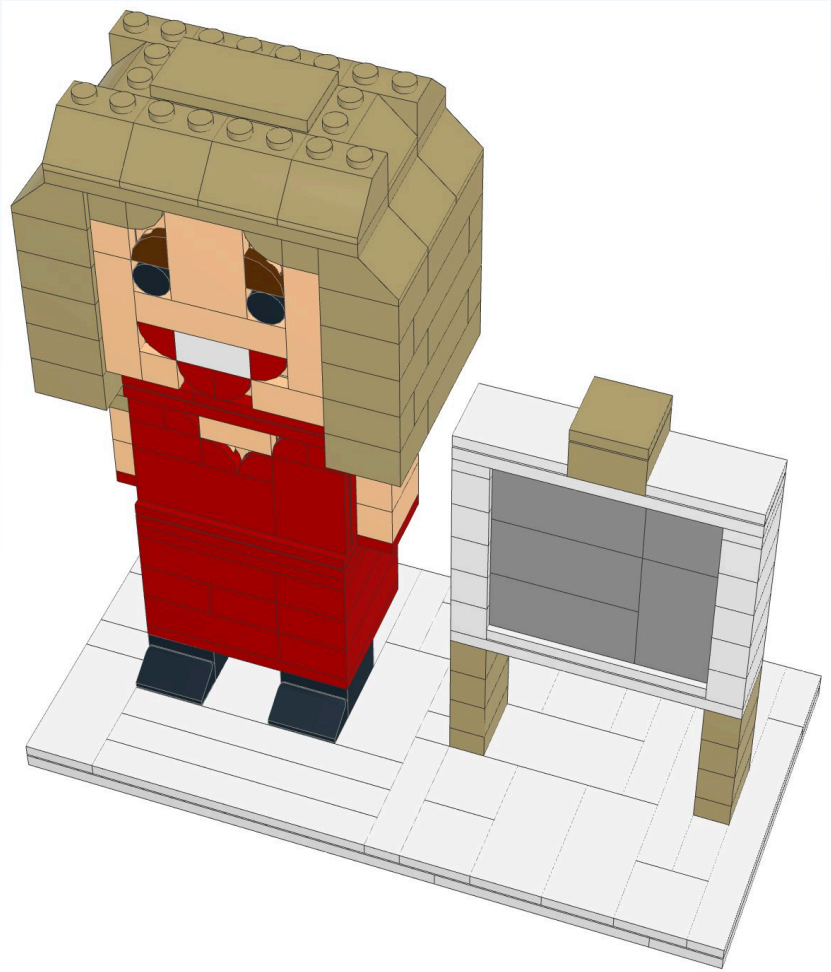

Every element is listed with its LEGO Element ID in the inventory at the back, and in `parts/` as CSV and BrickLink XML files. See “Ordering the parts” on the last pages.

1

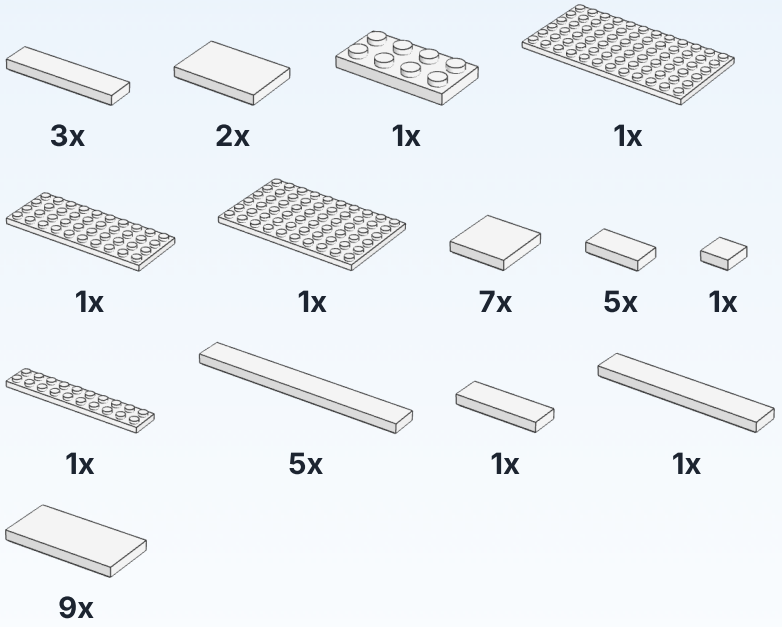

The display base

White plates, then white tiles. The shoes and the easel legs stand on the bare studs.

Ordering the parts

1 · LEGO Pick a Brick (lego.com)

1. Go to **lego.com → Pick and Build → Pick a Brick** and choose **Upload list**.
2. Upload `parts/pick_a_brick_upload.csv`. It lists all 67 kinds of element by Element ID with their quantities, and fills your bag in one go.
3. If anything isn't matched, upload `pick_a_brick_upload_retry.csv`. It has LEGO's newer IDs for the same parts; many white parts got new IDs in 2025. Or search the inventory's design number and colour.
4. Bestseller elements can be ordered up to 999 at a time. Many Standard elements are limited to 10 per order. Every element in this kit is on Pick a Brick's Bestseller list, which sells up to 999 of an element per order.

2 · BrickLink or Rebrickable (backup)

The files in `parts/` cover anything Pick a Brick does not stock:

- `bricklink_wanted_list.xml`: BrickLink → Want → Upload.
- `rebrickable_parts.csv`: import it as a Rebrickable part list, then compare stores.
- `pick_a_brick_mapping.csv`: how each part maps to Pick a Brick, with the evidence, the last price seen and a BrickLink backup.

What it costs

At Pick a Brick prices seen in 2022–2025, the 230 elements with a known price come to about **US$33**, plus shipping. LEGO raised prices on about a third of Pick a Brick elements in 2026, so expect to pay more. The bag total after uploading shows the current price.

Order a few spare 1×1 bricks and plates, because small parts go missing easily.

Substitutions

- **Hidden parts:** the side-stud bricks behind the face, the dress front and the photo area, the inner post of the head and the plates under the tiles can be any colour.
- **Base:** any white plates that cover 20 × 10 studs, tiled except under the shoes and the easel legs.
- **Extras:** an optional printed face sticker (48 × 48 mm) and a photo print (48 × 48 mm) for the frame; neither is a LEGO part.
