How the build is organised

1. The board
2. The mug
3. The pumpkin
4. Cinnamon sticks and leaves

The mug and the pumpkin are built on their own and then set on the board. Every section starts with a list of the parts it needs.

Reading the steps

Parts added in each step are **outlined in orange**. The blue box shows the parts for that step and how many of each you need. Part pictures are drawn to scale; plates longer than 8 studs are drawn at half size.

Tips

- The mug's rounded corners are curved bricks. Each one has a stud at both ends; check which way it curves against the picture.
- The handle is two 2×3 bricks sticking out of the side, joined by 1×2 bricks. Build it with the walls, course by course.
- The white tiles around the top edge lock the walls together, so press them down firmly.

Getting the parts

Every element is listed with its LEGO Element ID in the inventory at the back, and in parts/ as CSV and BrickLink XML files. See “Ordering the parts” on the last pages.

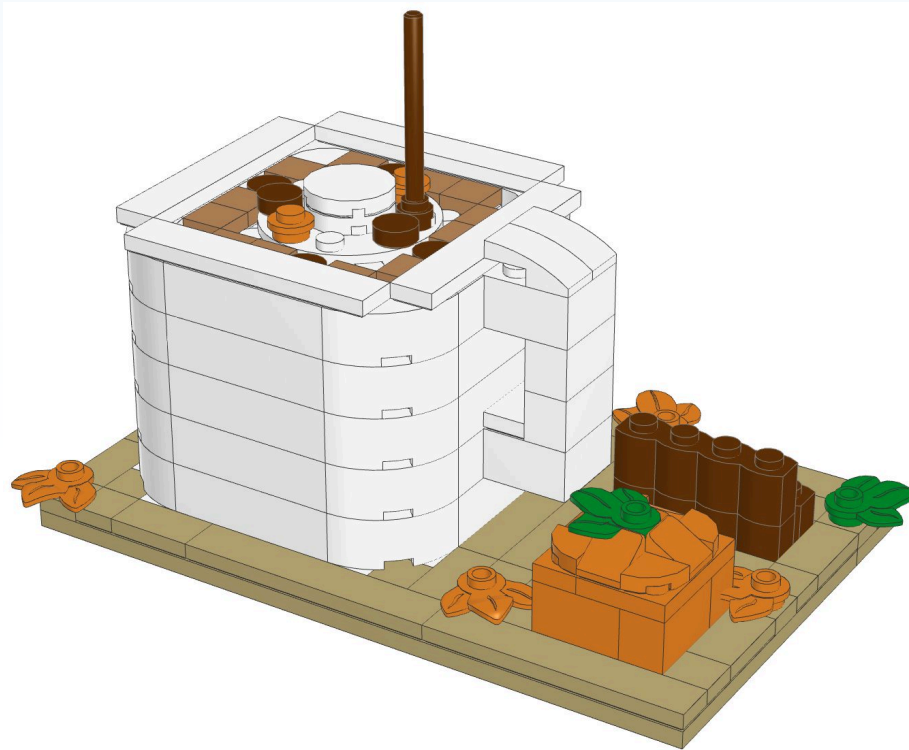

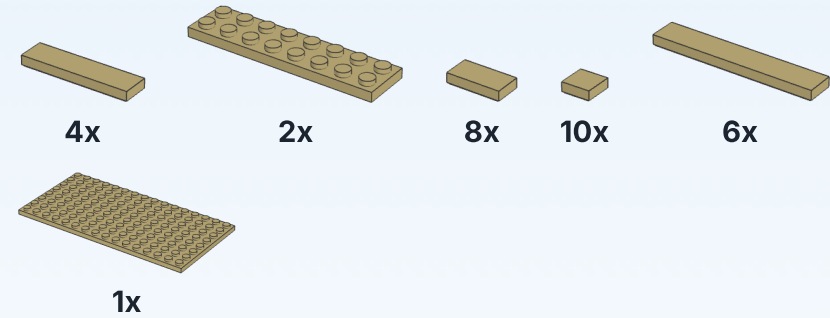

1

The board

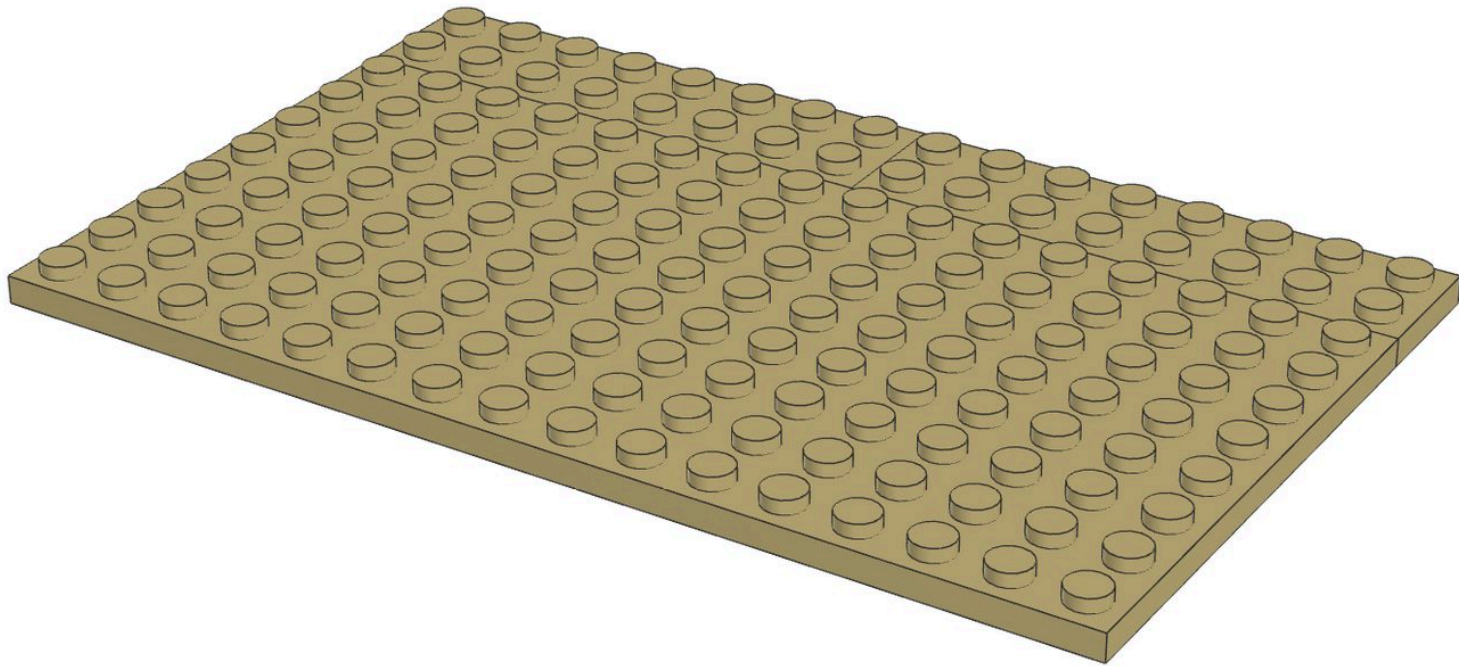

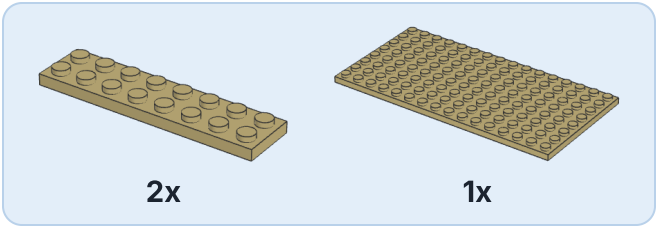

One big plate and two long ones make the board, and tiles make the planks. Leave the gaps open: the mug, the pumpkin, the cinnamon sticks and the leaves go there.

Ordering the parts

1 • LEGO Pick a Brick (lego.com)

1. Go to **lego.com** → **Pick and Build** → **Pick a Brick** and choose **Upload list**.
2. Upload parts/pick_a_brick_upload.csv. It lists all 39 kinds of element by Element ID with their quantities, and fills your bag in one go.
3. If anything isn't matched, upload pick_a_brick_upload_retry.csv. It has LEGO's newer IDs for the same parts; many white parts got new IDs in 2025. Or search the inventory's design number and colour.
4. Bestseller elements can be ordered up to 999 at a time. Many Standard elements are limited to 10 per order. Every element in this kit was in the Bestseller range, which ships from the US warehouse.

2 • BrickLink or Rebrickable (backup)

The files in parts/ cover anything Pick a Brick does not stock:

- bricklink_wanted_list.xml: BrickLink → Want → Upload.
- rebrickable_parts.csv: import it as a Rebrickable part list, then compare stores.
- pick_a_brick_mapping.csv: how each part maps to Pick a Brick, with the evidence, the last price seen and a BrickLink backup.

What it costs

At Pick a Brick prices seen in 2022–2025, the 158 elements with a known price come to about **US\$18**, plus shipping. LEGO raised prices on about a third of Pick a Brick elements in 2026, so expect to pay more. The bag total after uploading shows the current price.

Order a few spare 1×1 bricks and plates, because small parts go missing easily.

Substitutions

- **Board:** any colour of plates and tiles makes a different table top.
- **Hidden parts:** the core and the plates inside the mug can be any colour.
- **Mug colour:** the mug can be built in any colour that has the rounded corner brick (2×2 macaroni, design 85080).
