

BUILD INSTRUCTIONS

BoardWalk Inn

The arched entrance gatehouse in LEGO® bricks

1,239
pieces

38 × 26 cm
48 × 32 studs

Unofficial fan design

An unofficial fan-designed model (MOC), inspired by the entrance of Disney's BoardWalk Inn at Walt Disney World. It is not affiliated with, sponsored or endorsed by The LEGO Group or Disney. LEGO® is a trademark of The LEGO Group.

About this model

This model shows the entrance of the BoardWalk Inn: the white gatehouse with its big round arch, the gold lettering around it, round porthole windows and the curved roofline; the two towers with dark pyramid roofs and white spires; the cream lookout with its railing; and the low side wings. In front, a hedge rings an oval bed of red flowers with two topiaries, beside the red-and-blue painted curb.

Pieces	1,239 elements, 101 kinds, 13 colours
Size	48 × 32 studs (38.4 × 25.6 cm), 18 cm tall at the spires
Scale	about 1:76 (1 stud = 2 ft), like the Family Home model
Build time	about 4 to 6 hours
Model files	boardwalk_entrance.mpd (LDraw). Opens in BrickLink Studio, LeoCAD and LDCad.

How the build is organised

1. The grounds: base, road, curb, lawn and the bed's soil
2. The gatehouse
3. The towers (build 2)
4. The side wings (build 2)
5. The flower bed: hedge, flowers, topiaries and trees

The gatehouse, the towers and the wings are built on their own and then set on the base. Every section starts with a list of the parts it needs.

Reading the steps

Parts added in each step are **outlined in orange**. The blue box shows the parts for that step and how many of each you need. Part pictures are drawn to scale; plates longer than 8 studs are drawn at half size.

Tips

- The arch steps inward one course at a time with inverted slopes. Their sloped side always faces the middle of the arch.
- The nine gold round plates around the arch stand in for the letters of the BOARDWALK sign. Each one clips onto a white brick with a stud on one side.
- The towers and the side wings are built twice.
- The flower bed takes about 90 red flowers and 90 leaves. Build it three rows at a time, starting at the back.

Getting the parts

Every element is listed with its LEGO Element ID in the inventory at the back, and in parts/ as CSV and BrickLink XML files. See “Ordering the parts” on the last pages.

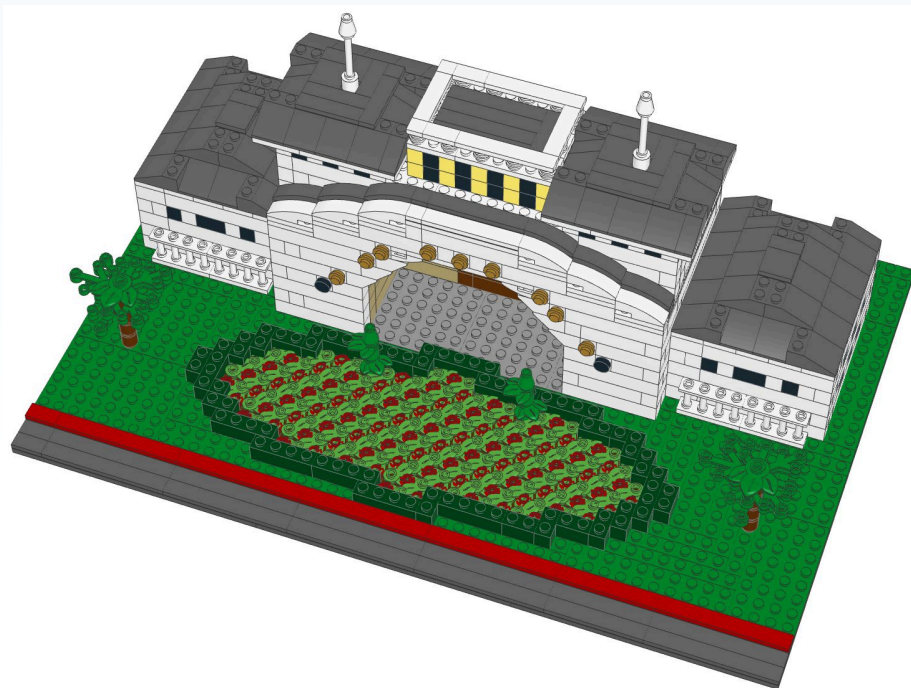

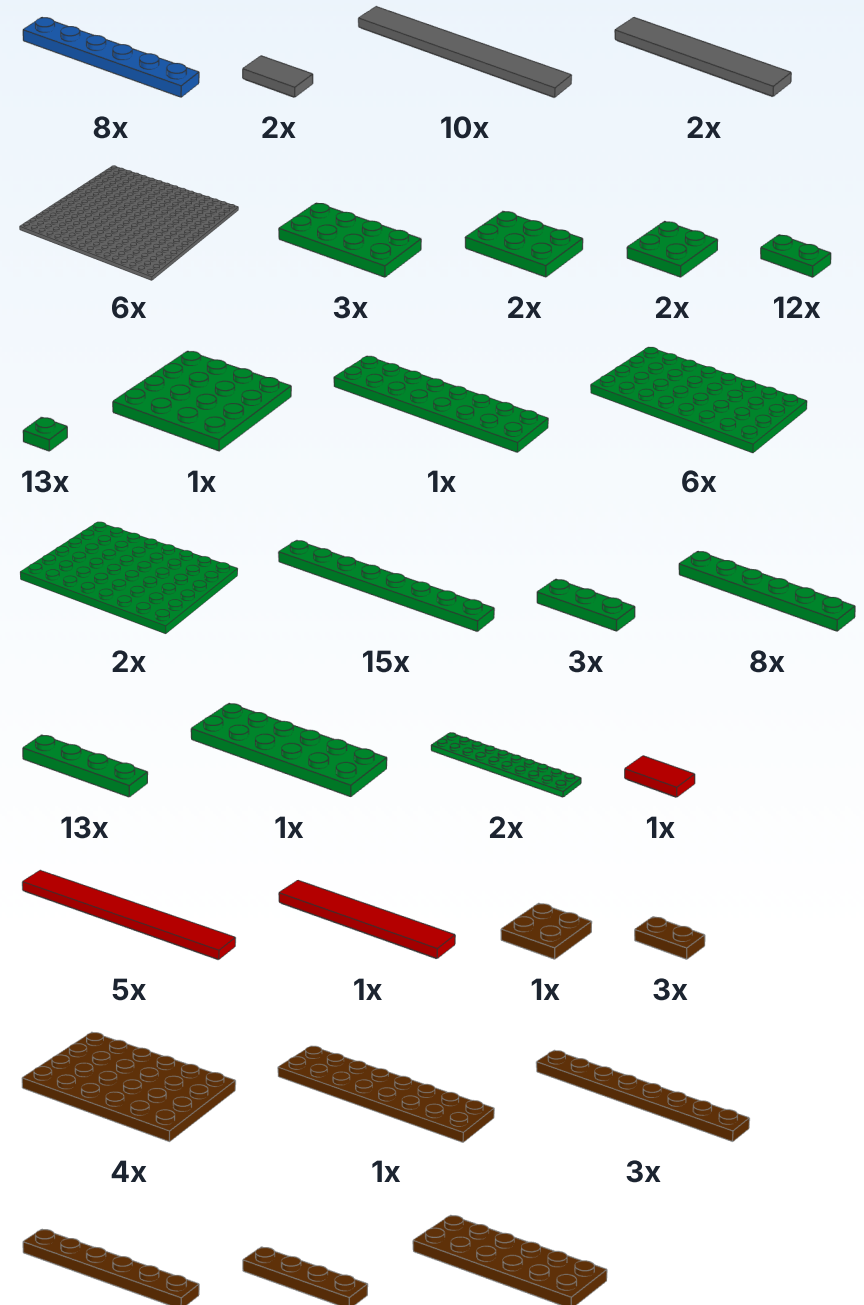

1

The grounds

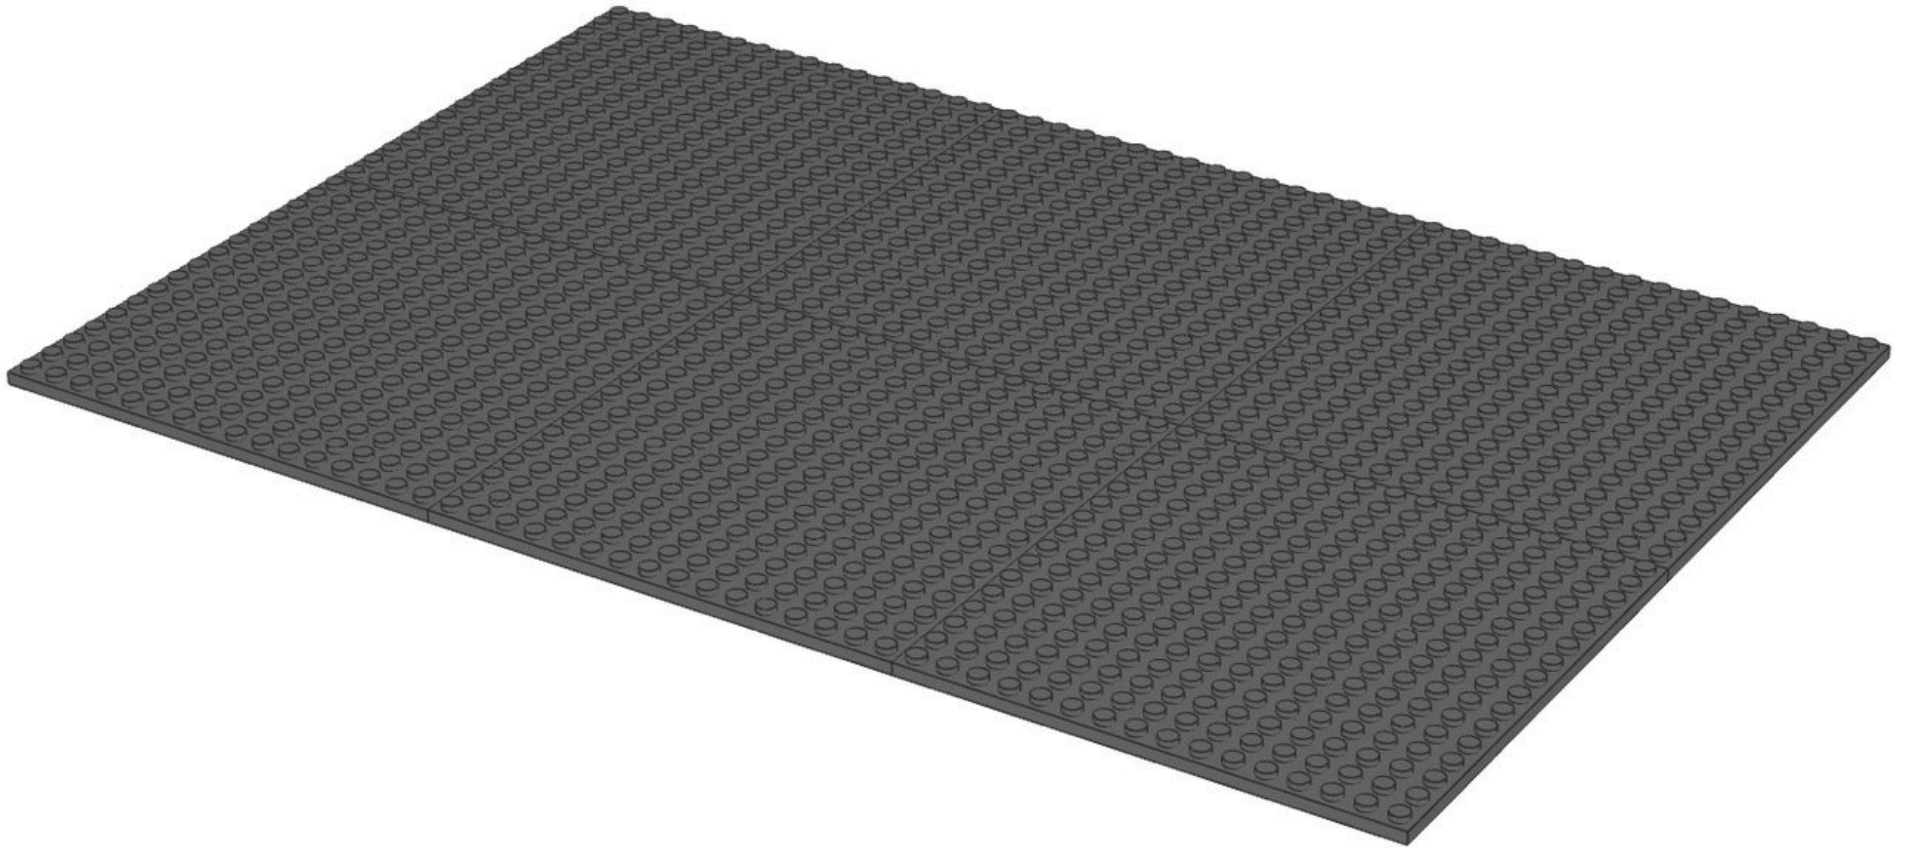

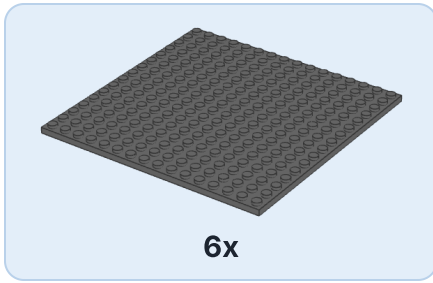

Six 16 × 16 plates make the base. The road, the painted curb, the lawn and the flower bed go on top.

Ordering the parts

1 · LEGO Pick a Brick (lego.com)

1. Go to **lego.com** → **Pick and Build** → **Pick a Brick** and choose **Upload list**.
2. Upload parts/pick_a_brick_upload.csv. It lists all 101 kinds of element by Element ID with their quantities, and fills your bag in one go.
3. If anything isn't matched, upload pick_a_brick_upload_retry.csv. It has LEGO's newer IDs for the same parts; many white parts got new IDs in 2025. Or search the inventory's design number and colour.
4. Bestseller elements can be ordered up to 999 at a time. Many Standard elements are limited to 10 per order. Every element this model needs more than 10 of was in the Bestseller range. Four were not on the 2022 Bestseller list (the gold round plates of the lettering, the two curved slopes at the top of the arch, two dark green 1×1 bricks and one grey 1×12 plate); the model needs 9 or fewer of each.

2 · BrickLink or Rebrickable (backup)

The files in parts/ cover anything Pick a Brick does not stock:

- bricklink_wanted_list.xml: BrickLink → Want → Upload.
- rebrickable_parts.csv: import it as a Rebrickable part list, then compare stores.
- pick_a_brick_mapping.csv: how each part maps to Pick a Brick, with the evidence, the last price seen and a BrickLink backup.

What it costs

At Pick a Brick prices seen in 2022–2025, the 1,227 elements with a known price come to about **US\$169**, plus shipping. LEGO raised prices on about a third of Pick a Brick elements in 2026, so expect to pay more. The bag total after uploading shows the current price.

Order a few spare 1×1 bricks and plates, because small parts go missing easily.

Substitutions

- **Base:** six 16×16 plates. Any plates that cover 48×32 studs will do.
- **Lettering:** if you have printed 1×1 letter tiles, you can spell BOARDWALK on the side studs instead of using gold round plates.
- **Hidden parts:** the roof deck under the towers and the supports inside the roofs can be any colour.
- **Flowers:** any red 1×1 flowers or round plates will do.
