

BUILD INSTRUCTIONS

Old Key West Resort

A compact display model in LEGO® bricks

225
pieces

19 × 13 cm
24 × 16 studs

Unofficial fan design

An unofficial fan-designed model (MOC), inspired by Disney's Old Key West Resort at Walt Disney World. It is not affiliated with, sponsored or endorsed by The LEGO Group or Disney. LEGO® is a trademark of The LEGO Group.

About this model

The Hospitality House of Old Key West: a two-storey Key West house in pale yellow with white corner boards, raised on a white lattice skirt. A white porch with posts and railings runs across the front and round the corners, with a balcony over the door; on top sit a light grey tin roof with white gable trim and a louvred cupola, and a palm stands by the front steps.

Pieces	225 elements, 42 kinds, 7 colours
Size	24 × 16 studs (19.2 × 12.8 cm), 9 cm tall
Scale	about 1:250 (one storey = 4 plates, 1 stud ≈ 2 m), like the large resort models
Build time	about 45 minutes to 1 hour
Model files	old_key_west_compact.mpd (LDraw). Opens in BrickLink Studio, LeoCAD and LDCad.

How the build is organised

1. The display base and the lawn
2. The Hospitality House
3. The palm

Every kit in the compact resort collection stands on the same 24×16 display base with a black front band. Each section starts with a list of the parts it needs.

Reading the steps

Parts added in each step are **outlined in orange**. The blue box shows the parts for that step and how many of each you need. Part pictures are drawn to scale; plates longer than 8 studs are drawn at half size.

Tips

- Each storey is one course of yellow bricks with black bricks for the windows, then a layer of plates. Keep the yellow, white and black bricks in separate trays.
- The porch railings are round 1×1 plates with tiles on top, between posts of round 1×1 bricks.
- The roof goes up one row of slopes at a time; the white slopes go at the two gable ends.

Getting the parts

Every element is listed with its LEGO Element ID in the inventory at the back, and in parts/ as CSV and BrickLink XML files. See “Ordering the parts” on the last pages.

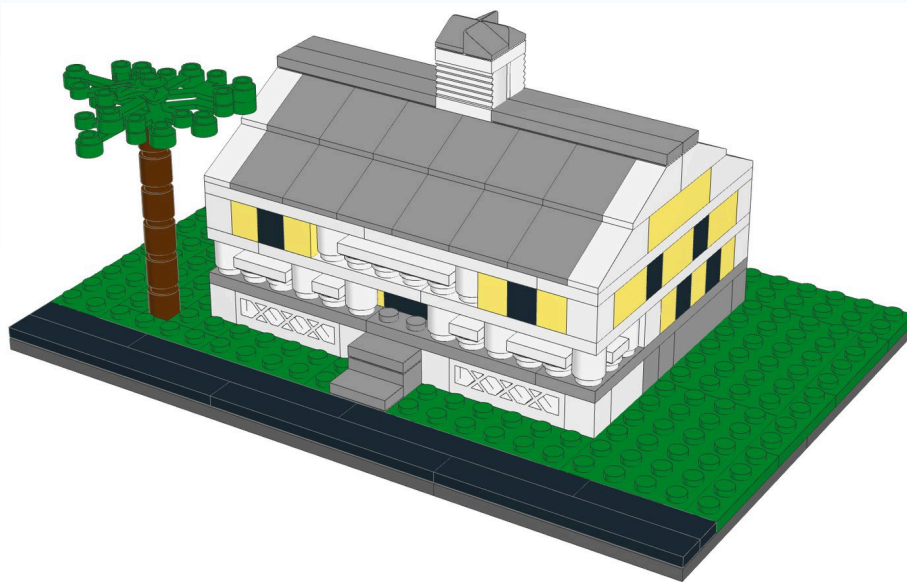

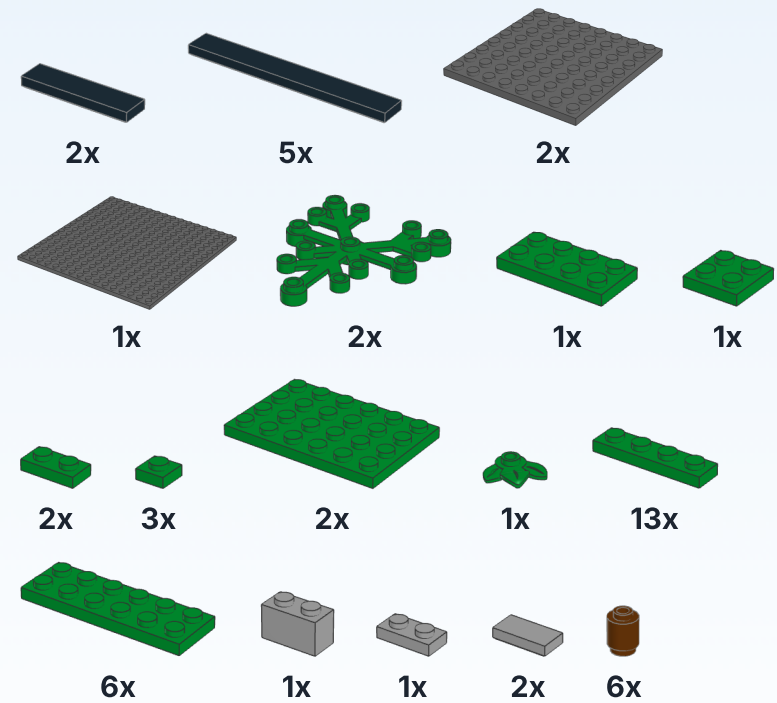

1

The display base

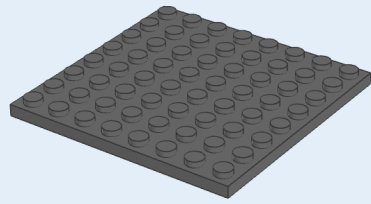

The base and the black band are the same for every kit in the collection. The lawn, the walk and the front step go on next.

Ordering the parts

1 · LEGO Pick a Brick (lego.com)

- 1. Go to **lego.com** → **Pick and Build** → **Pick a Brick** and choose **Upload list**.
- 2. Upload parts/pick_a_brick_upload.csv. It lists all 42 kinds of element by Element ID with their quantities, and fills your bag in one go.
- 3. If anything isn't matched, upload pick_a_brick_upload_retry.csv. It has LEGO's newer IDs for the same parts; many white parts got new IDs in 2025. Or search the inventory's design number and colour.
- 4. Bestseller elements can be ordered up to 999 at a time. Many Standard elements are limited to 10 per order. Every element in this kit was in Pick a Brick's Bestseller range, which ships from the US warehouse.

2 · BrickLink or Rebrickable (backup)

The files in parts/ cover anything Pick a Brick does not stock:

- bricklink_wanted_list.xml: BrickLink → Want → Upload.
- rebrickable_parts.csv: import it as a Rebrickable part list, then compare stores.
- pick_a_brick_mapping.csv: how each part maps to Pick a Brick, with the evidence, the last price seen and a BrickLink backup.

What it costs

At Pick a Brick prices seen in 2022–2025, the 225 elements with a known price come to about **US\$34**, plus shipping. LEGO raised prices on about a third of Pick a Brick elements in 2026, so expect to pay more. The bag total after uploading shows the current price.

Order a few spare 1×1 bricks and plates, because small parts go missing easily.

Substitutions

- **Ground:** any colour of tiles works for the base around the building.
- **Hidden parts:** bricks and plates inside the building can be any colour.

Colour names
