

BUILD INSTRUCTIONS

Coronado Springs Resort

332
pieces

13 cm
24 × 16 studs

A compact display model in LEGO® bricks

Unofficial fan design

An unofficial fan-designed model (MOC), inspired by Disney's Coronado Springs Resort at Walt Disney World. It is not affiliated with, sponsored or endorsed by The LEGO Group or Disney. LEGO® is a trademark of The LEGO Group.

About this model

The Gran Destino Tower rising behind El Centro: a tall, slim tan tower with bands of dark windows and a crown of fins around a glass lantern at the top, and in front of it the low mission-style arcade of El Centro with its arches, terracotta tile roof and the stepped gable over its entrance. Two palms and a strip of the lake finish the scene.

Pieces	332 elements, 39 kinds, 9 colours
Size	24 × 16 studs (19.2 × 12.8 cm), 22 cm tall
Scale	about 1:250 (one storey = 4 plates, 1 stud ≈ 2 m), like the large resort models
Build time	about 1 to 1½ hours
Model files	coronado_springs_compact.mpd (LDraw). Opens in BrickLink Studio, LeoCAD and LDCad.

How the build is organised

1. The display base, the lake and the lawn
2. The Gran Destino Tower
3. El Centro
4. The palms (build 2)

Every kit in the compact resort collection stands on the same 24×16 display base with a black front band. Each section starts with a list of the parts it needs.

Reading the steps

Parts added in each step are **outlined in orange**. The blue box shows the parts for that step and how many of each you need. Part pictures are drawn to scale; plates longer than 8 studs are drawn at half size.

Tips

- Each storey of the tower is one course of tan and black bricks, then one 4×8 plate. The storeys repeat, so build them like a stack: course, plate, course, plate.
- Press each 4×8 plate down over all four walls so the tower stays square.
- The arches sit on piers of tan bricks; the roof goes up one row of slopes at a time.
- A **“Build 2”** badge means you build that module twice.

Getting the parts

Every element is listed with its LEGO Element ID in the inventory at the back, and in parts/ as CSV and BrickLink XML files. See “Ordering the parts” on the last pages.

1

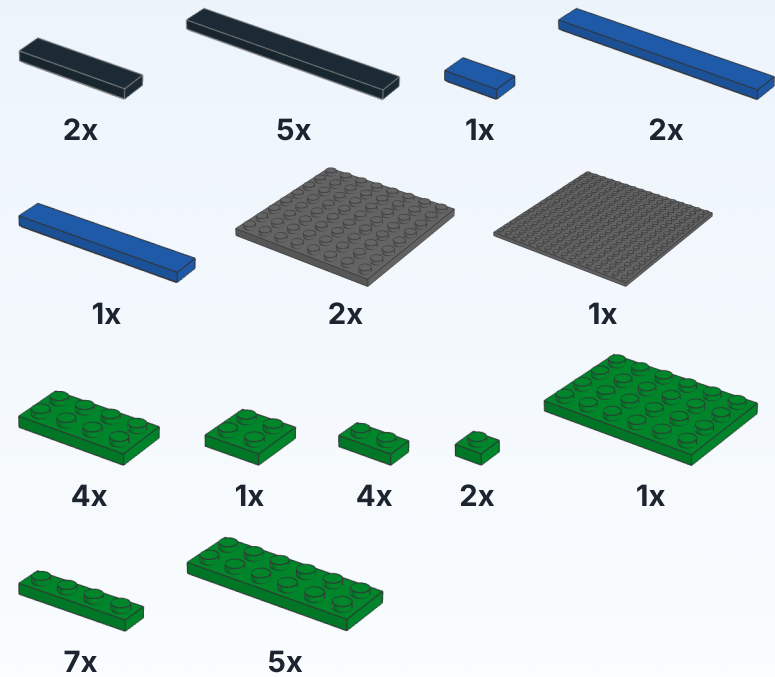

The display base

The base and the black band are the same for every kit in the collection. The lake and the lawn go on next.

Ordering the parts

1 · LEGO Pick a Brick (lego.com)

- 1. Go to **lego.com** → **Pick and Build** → **Pick a Brick** and choose **Upload list**.
- 2. Upload parts/pick_a_brick_upload.csv. It lists all 39 kinds of element by Element ID with their quantities, and fills your bag in one go.
- 3. If anything isn't matched, upload pick_a_brick_upload_retry.csv. It has LEGO's newer IDs for the same parts; many white parts got new IDs in 2025. Or search the inventory's design number and colour.
- 4. Bestseller elements can be ordered up to 999 at a time. Many Standard elements are limited to 10 per order. Every element in this kit was in Pick a Brick's Bestseller range, which ships from the US warehouse.

2 · BrickLink or Rebrickable (backup)

The files in parts/ cover anything Pick a Brick does not stock:

- bricklink_wanted_list.xml: BrickLink → Want → Upload.
- rebrickable_parts.csv: import it as a Rebrickable part list, then compare stores.
- pick_a_brick_mapping.csv: how each part maps to Pick a Brick, with the evidence, the last price seen and a BrickLink backup.

What it costs

At Pick a Brick prices seen in 2022–2025, the 332 elements with a known price come to about **US\$48**, plus shipping. LEGO raised prices on about a third of Pick a Brick elements in 2026, so expect to pay more. The bag total after uploading shows the current price.

Order a few spare 1×1 bricks and plates, because small parts go missing easily.

Substitutions

- **Ground:** any colour of tiles works for the base around the building.
- **Hidden parts:** bricks and plates inside the building can be any colour.

Colour names

In this booklet	LEGO name	BrickLink
Tan	Brick Yellow	Tan
Dark Orange	Dark Orange	Dark Orange
Black	Black	Black
Pearl Gold	Warm Gold	Pearl Gold
Light Bluish Gray	Medium Stone Grey	Light Bluish Gray
