

BUILD INSTRUCTIONS

Wilderness Lodge

A mid-size display model in LEGO® bricks

619
pieces

26 × 19 cm
32 × 24 studs

Unofficial fan design

An unofficial fan-designed model (MOC), inspired by Disney's Wilderness Lodge at Walt Disney World. It is not affiliated with, sponsored or endorsed by The LEGO Group or Disney. LEGO® is a trademark of The LEGO Group.

About this model

The arrival front of the Wilderness Lodge, in the Pacific Northwest style of the great national-park lodges, as a guest sees it from the drive: the six-storey lodge of reddish-brown logs on a stone base, under a steep dark-green front gable with the tall lobby window; the big log porte-cochere over the drive, on paired log columns and stone piers, with a log truss in its own steep gable; guest wings on each side that step down from four storeys to three under green gables; the tall stone chimney rising behind the ridge; the two totem poles either side of the entrance, and dark-green pines along the drive that loops in from the road.

Pieces	619 elements, 53 kinds, 9 colours
Size	32 × 24 studs (25.6 × 19.2 cm), 15 cm tall
Scale	about 1:250 (one storey = 4 plates, 1 stud ≈ 2 m), like the large resort models
Build time	about 2 to 2½ hours
Model files	wilderness_lodge_midsize.mpd (LDraw). Opens in BrickLink Studio, LeoCAD and LDCad.

How the build is organised

1. The display base, the drive and the lawns
2. The great lodge
3. The left wing
4. The right wing
5. The porte-cochere
6. The chimney
7. The totem poles and the pines

Every kit in the mid-size resort collection stands on the same 32×24 display base with a black front band. Each section starts with a list of the parts it needs.

Reading the steps

Parts added in each step are **outlined in orange**. The blue box shows the parts for that step and how many of each you need. Part pictures are drawn to scale; plates longer than 8 studs are drawn at half size.

Tips

- The walls are log bricks: 1×4 and 1×2 logs, with a plain 1×1 brick where a run needs one more stud. The ground storey is stone: masonry bricks in two greys and tan, mixed freely.
- Each storey ends with a ring of plates on the walls. It runs the other way round from the one below (across the front and back corners, then along the sides), so the corners lock together.
- The two wings are mirror images, each with its own pages: the lower block goes at the outer end, and the side against the lodge stays open.
- Roofs go up one row of slopes at a time.
- The porte-cochere stands on its own four feet; set it down so its back edge touches the front of the lodge.
- A **“Build 2”** or **“Build 4”** badge means you build that module two or four times.

Getting the parts

Every element is listed with its LEGO Element ID in the inventory at the back, and in parts/ as CSV and BrickLink XML files. See “Ordering the parts” on the last pages.

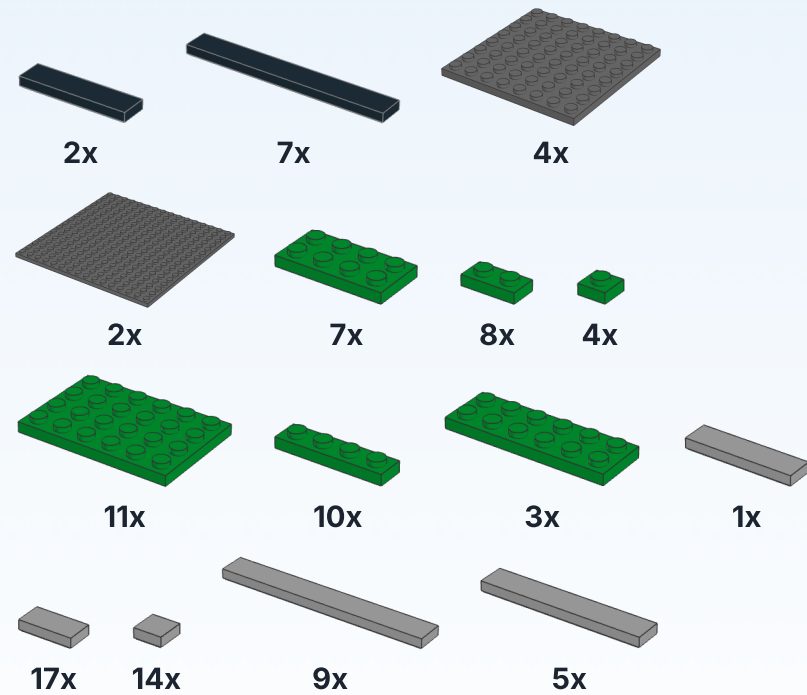

1

The display base

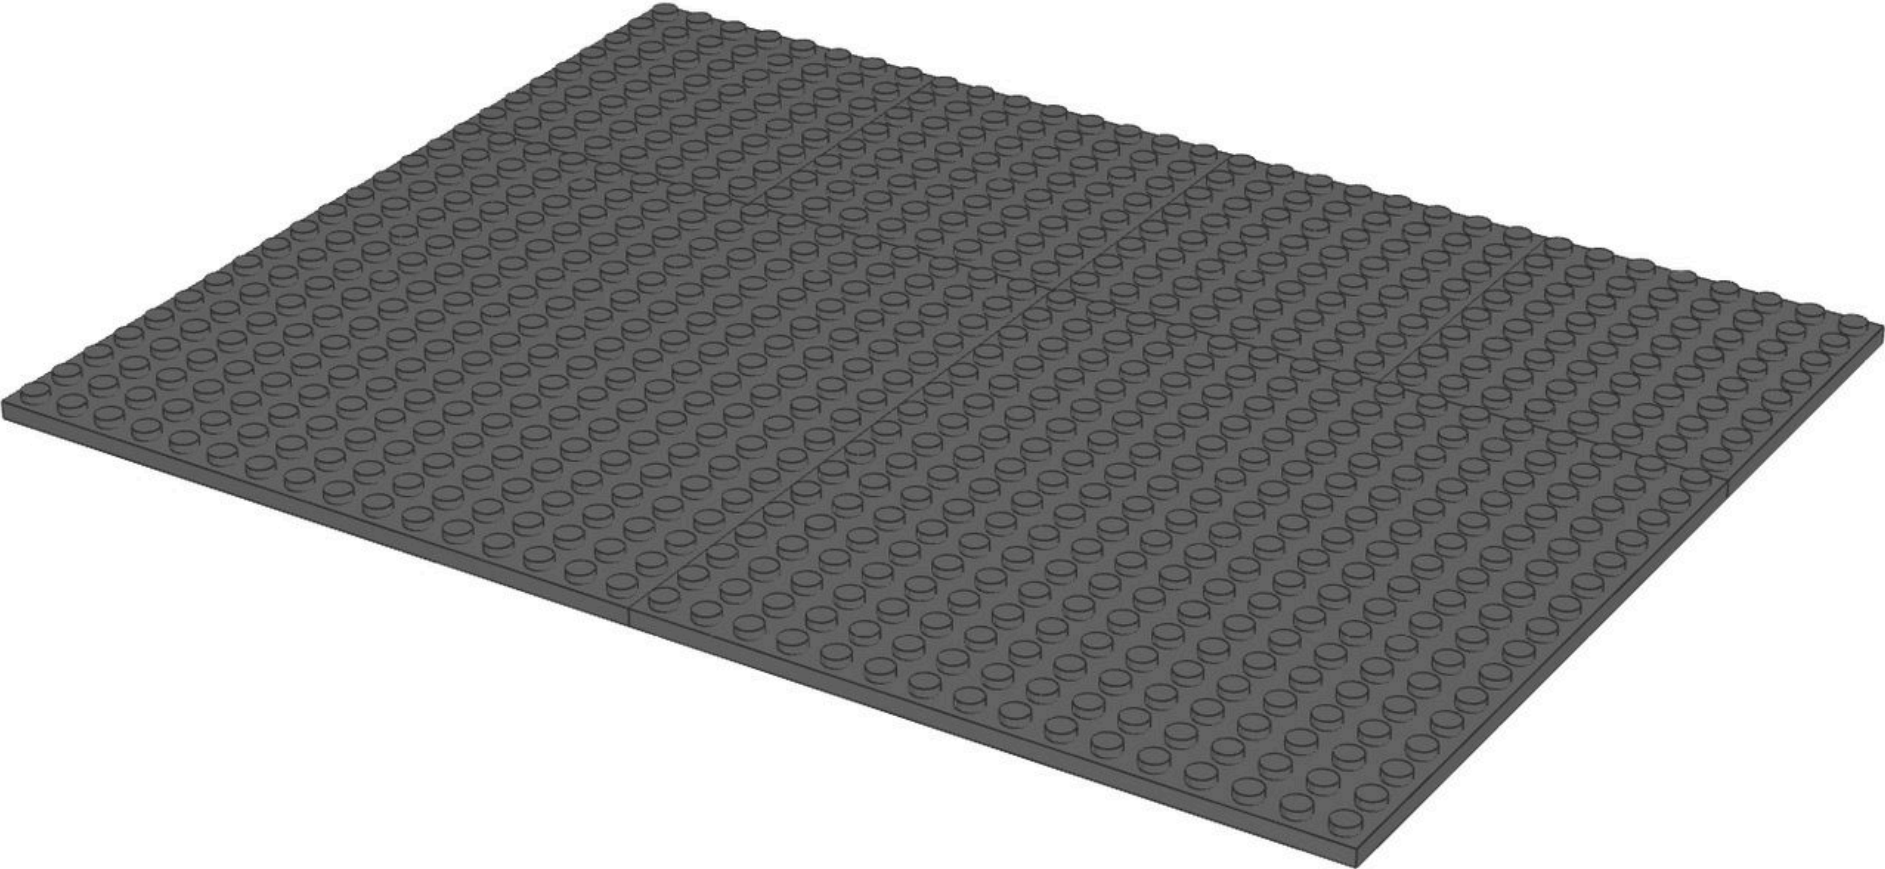

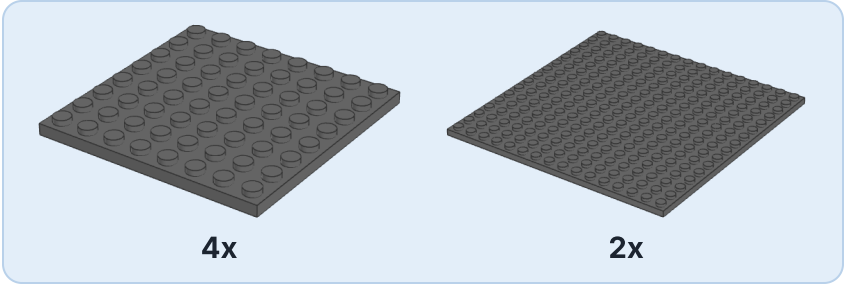

The base and the black band are the same for every mid-size kit. The drive and the lawns go on next; the drive tiles tie the base plates together.

104 elements in this section

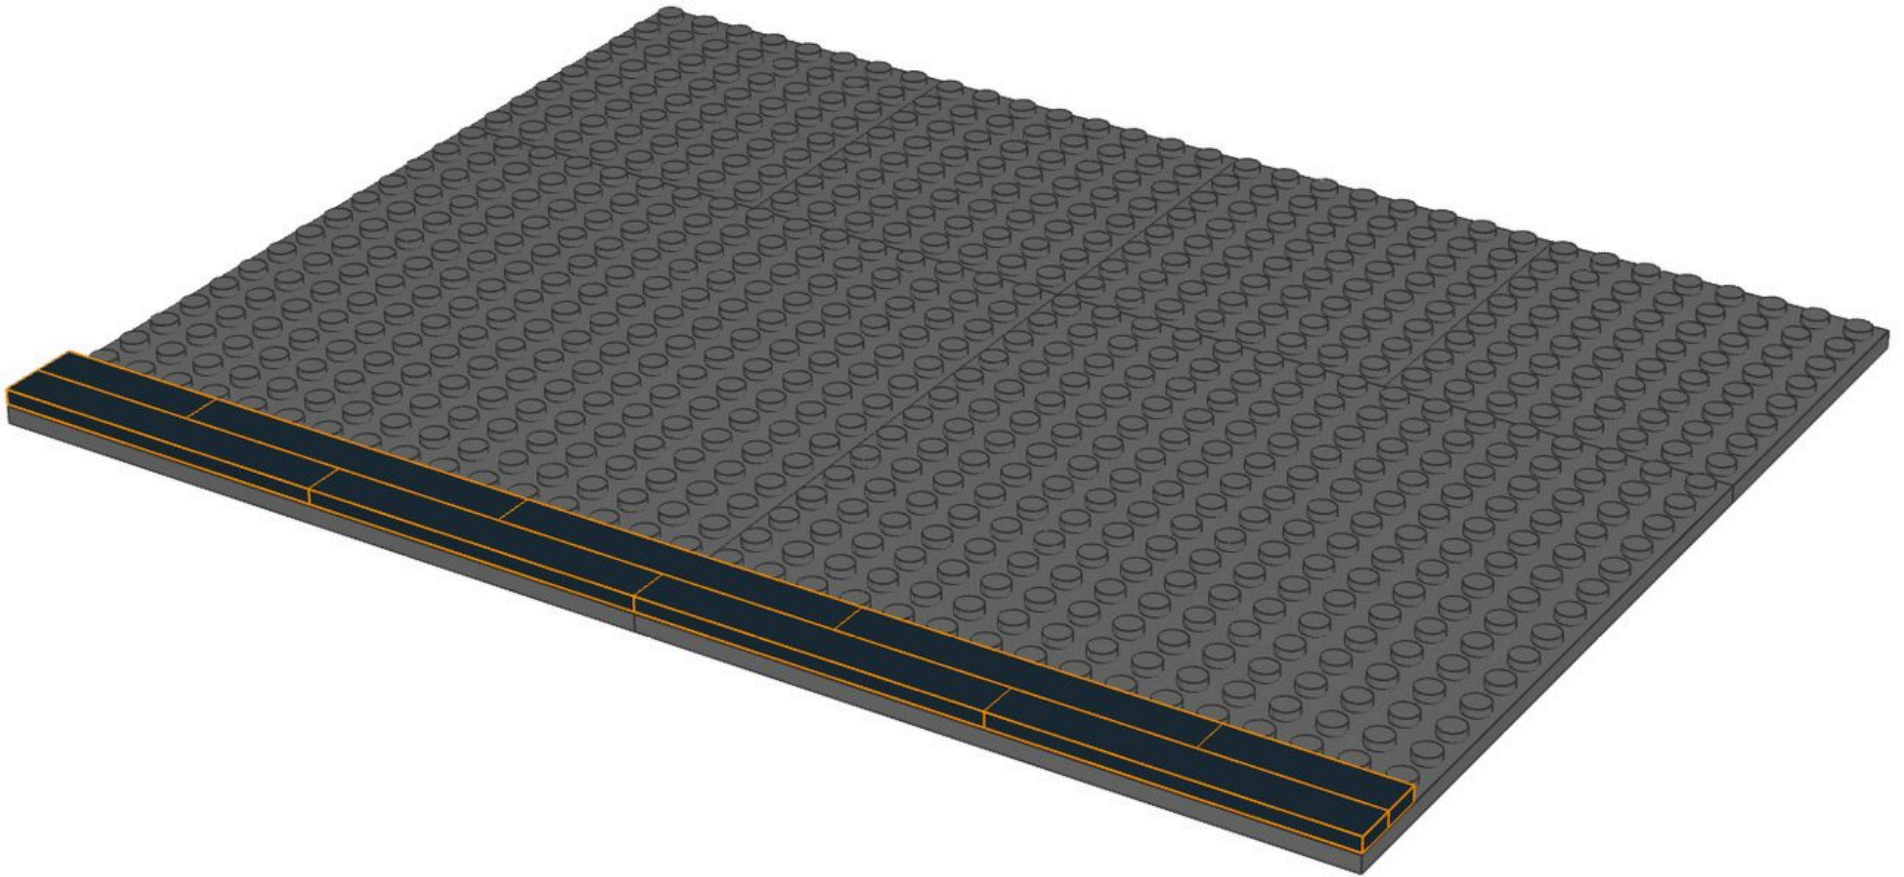

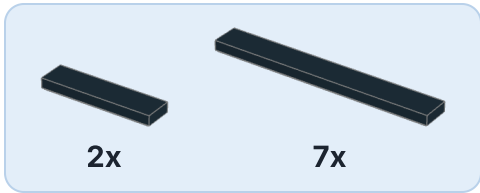

PARTS FOR THIS SECTION

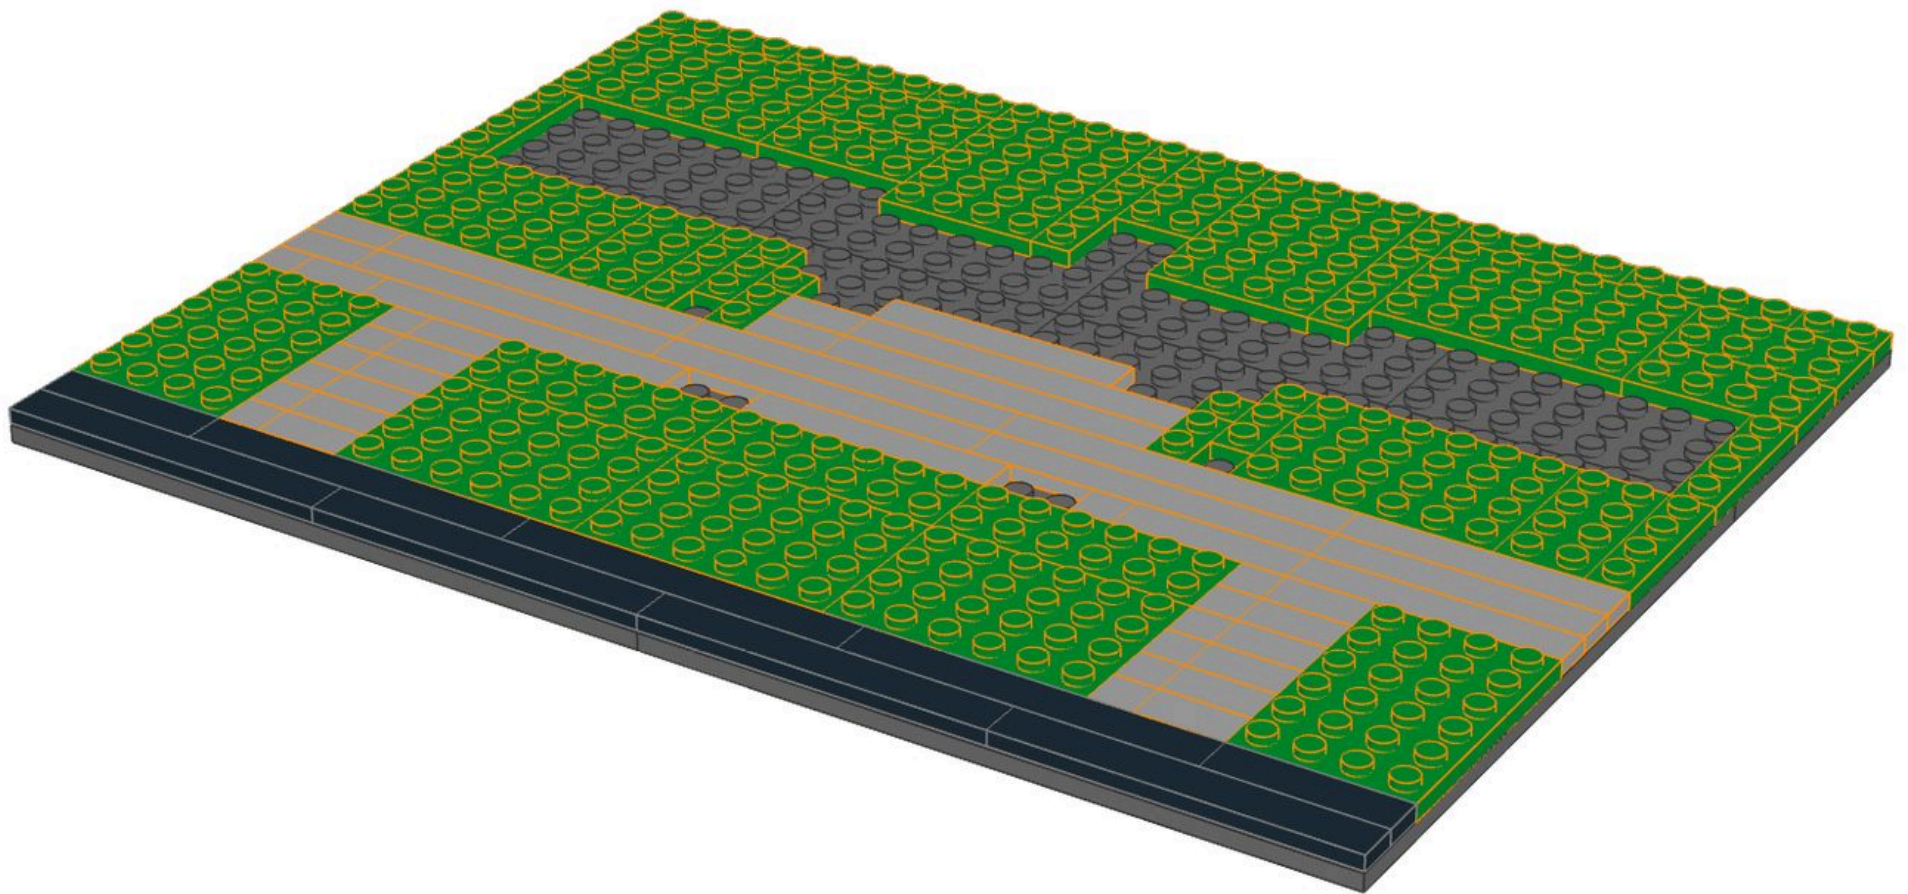

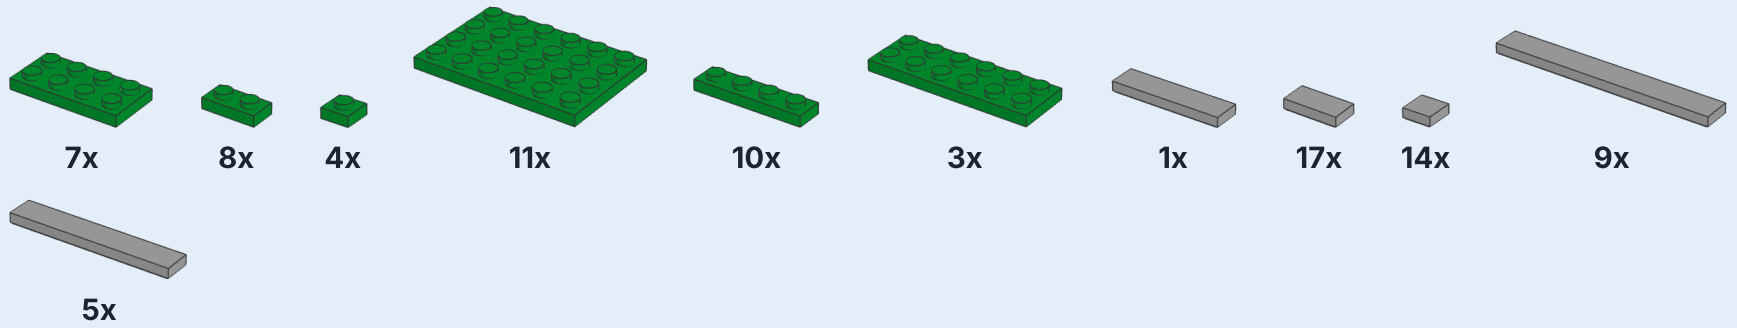

1

2

3

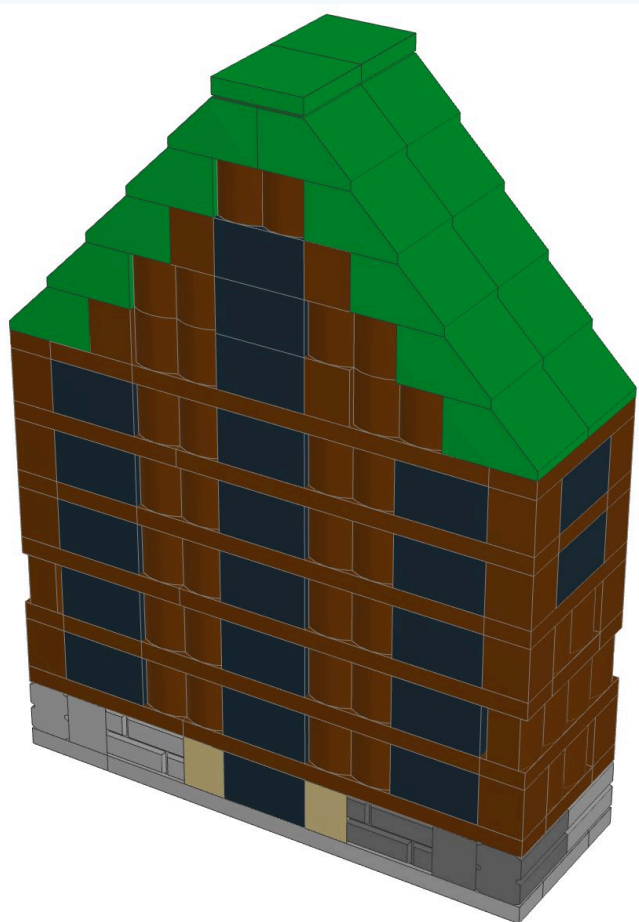

2

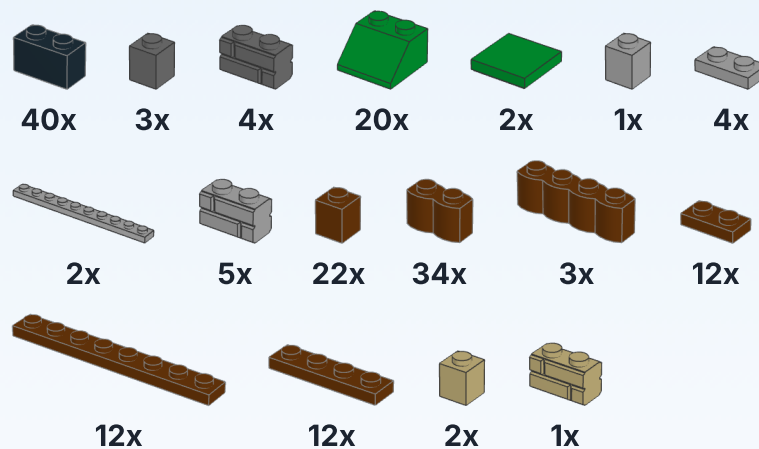

The great lodge

A stone storey and five storeys of logs with rows of windows, then the steep green front gable with the tall lobby window.

20

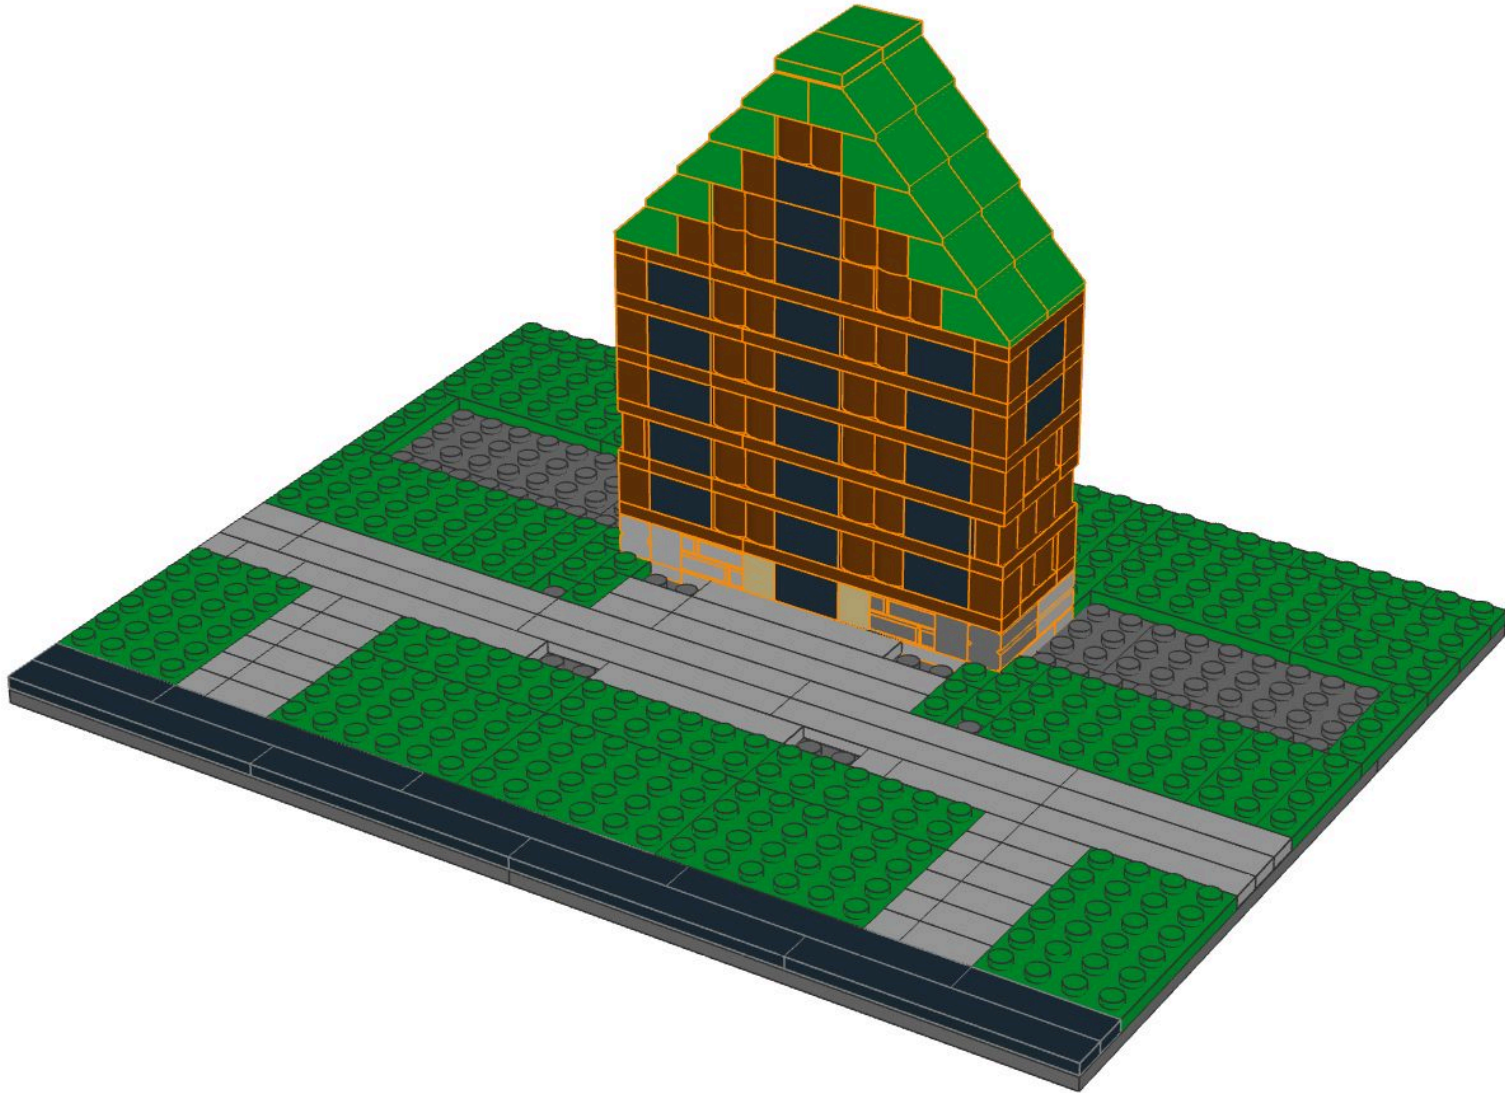

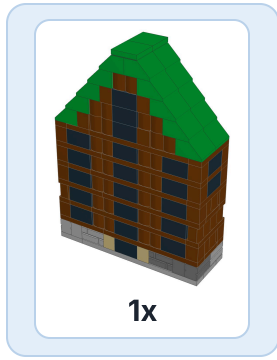

21

22

23

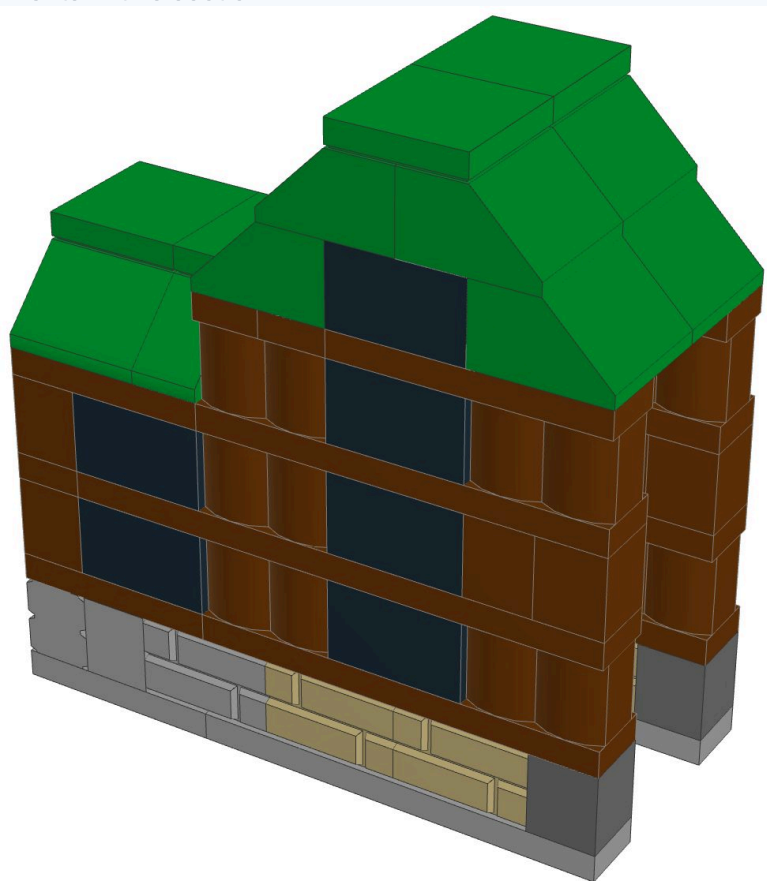

3

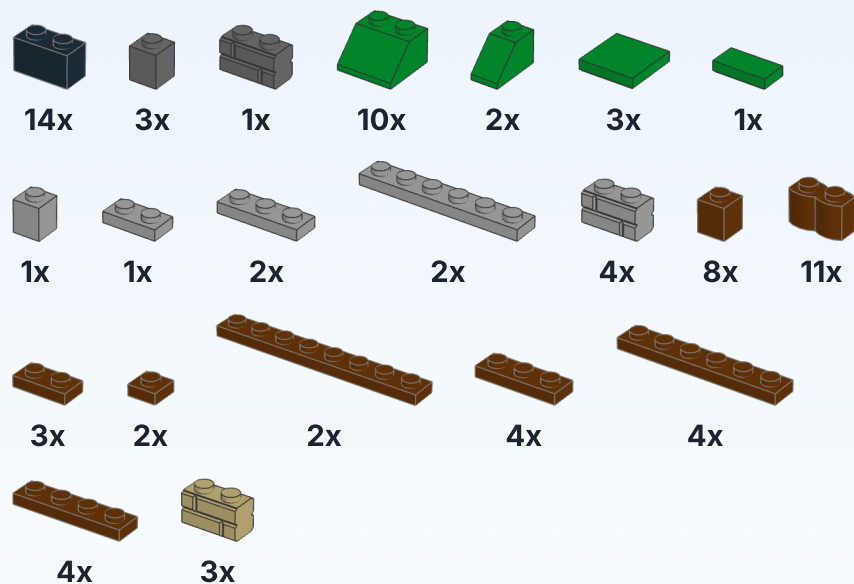

The left wing

Three storeys across the whole wing and one more on the inner block next to the lodge; a side gable over the outer block and a front gable over the inner one. The side that stands against the lodge is left open.

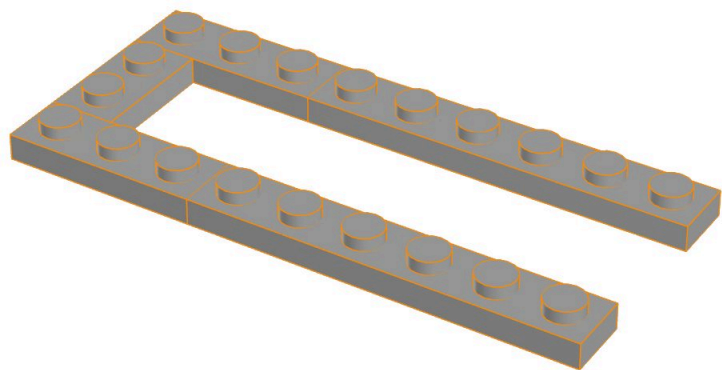

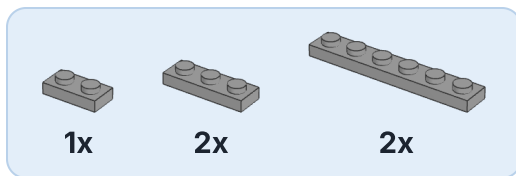

85 elements in this section

PARTS FOR THIS SECTION

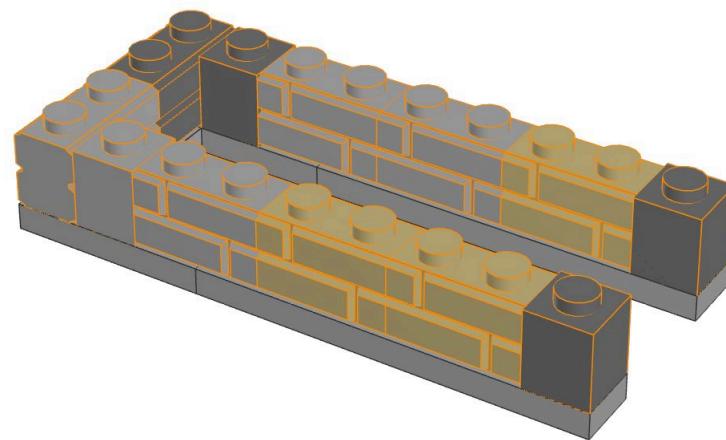

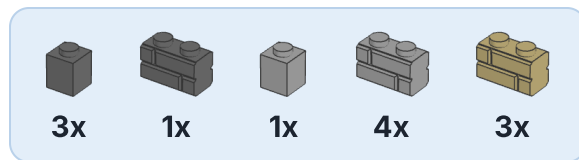

24

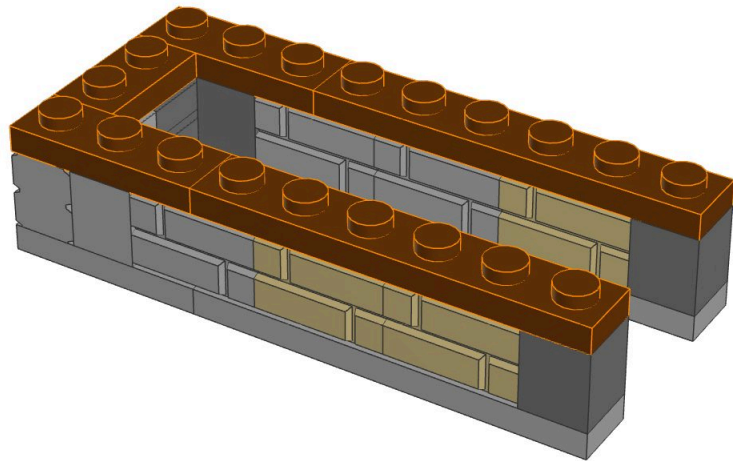

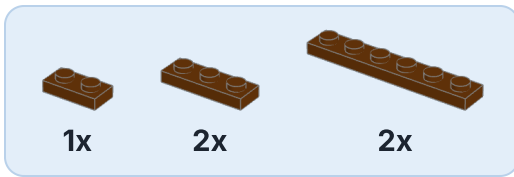

The side that will stand against the lodge stays open: the lodge's own wall closes it.

Ordering the parts

1 · LEGO Pick a Brick (lego.com)

- 1. Go to **lego.com** → **Pick and Build** → **Pick a Brick** and choose **Upload list**.
- 2. Upload parts/pick_a_brick_upload.csv. It lists all 53 kinds of element by Element ID with their quantities, and fills your bag in one go.
- 3. If anything isn't matched, upload pick_a_brick_upload_retry.csv. It has LEGO's newer IDs for the same parts; many white parts got new IDs in 2025. Or search the inventory's design number and colour.
- 4. Bestseller elements can be ordered up to 999 at a time. Many Standard elements are limited to 10 per order. Every element in this kit was in Pick a Brick's Bestseller range, which ships from the US warehouse.

2 · BrickLink or Rebrickable (backup)

The files in parts/ cover anything Pick a Brick does not stock:

- bricklink_wanted_list.xml: BrickLink → Want → Upload.
- rebrickable_parts.csv: import it as a Rebrickable part list, then compare stores.
- pick_a_brick_mapping.csv: how each part maps to Pick a Brick, with the evidence, the last price seen and a BrickLink backup.

What it costs

At Pick a Brick prices seen in 2022–2025, the 619 elements with a known price come to about **US\$77**, plus shipping. LEGO raised prices on about a third of Pick a Brick elements in 2026, so expect to pay more. The bag total after uploading shows the current price.

Order a few spare 1×1 bricks and plates, because small parts go missing easily.

Substitutions

- **Ground:** any colour of tiles works for the base around the building.
- **Hidden parts:** bricks and plates inside the building can be any colour.

Colour names

In this booklet	LEGO name	BrickLink
