

BUILD INSTRUCTIONS

Family Home

A two-storey house with stone gable and porch, in LEGO® bricks

699
pieces

38 × 26 cm
48 × 32 studs

Custom model

A custom model (MOC) designed from a photo of the house. It is not affiliated with, sponsored or endorsed by The LEGO Group. LEGO® is a trademark of The LEGO Group.

About this model

This model recreates the house in the photo: the two-car garage with its carriage door and white-trimmed gable, the two-storey stacked-stone front with its steep gable, the covered porch with white columns, railing and a black metal roof, and the charcoal siding under a black shingle roof. The lot has the driveway, sidewalk, flower beds, a lamp post, a young tree, the stepped retaining wall and the car.

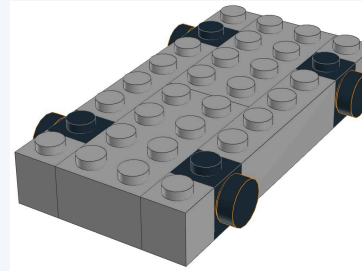

Pieces	699 elements, 96 kinds, 13 colours
Size	48 × 32 studs (38.4 × 25.6 cm), 13 cm tall to the ridge
Scale	about 1:76 (1 stud = 2 ft, one storey = 4 bricks)
Build time	about 4 to 5 hours
Model files	family_home.mpd (LDraw). Opens in BrickLink Studio, LeoCAD and LDCad.

How the build is organised

1. The lot: base, sidewalk, driveway and lawn
2. The garage
3. The house: walls, porch and roofs
4. The car
5. The garden: beds, lamp post, tree and retaining wall

The garage, the house and the car are built on their own and then set on the lot. Every section starts with a list of the parts it needs.

Reading the steps

Parts added in each step are **outlined in orange**. The blue box shows the parts for that step and how many of each you need. Part pictures are drawn to scale; plates longer than 8 studs are drawn at half size.

Tips

- The stone front uses masonry-profile 1×2 bricks in four colours. The exact colour order doesn't matter, so mix them as you like.
- Windows come in two parts: slide the clear glass into each white frame before you place it.
- Each floor is four courses of bricks. The corners swap from course to course, so follow the pictures closely where two walls meet.
- The roof is built one row of slopes at a time. Where the stone gable meets the main roof, the slopes step around each other to form the valley.

Getting the parts

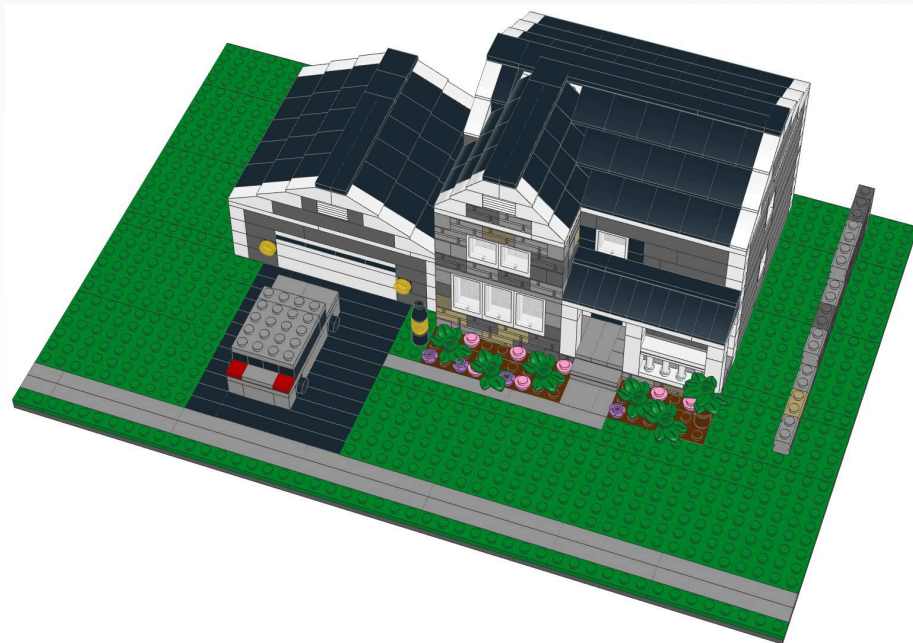

Every element is listed with its LEGO Element ID in the inventory at the back, and in parts/ as CSV and BrickLink XML files. See "Ordering the parts" on the last pages.

1

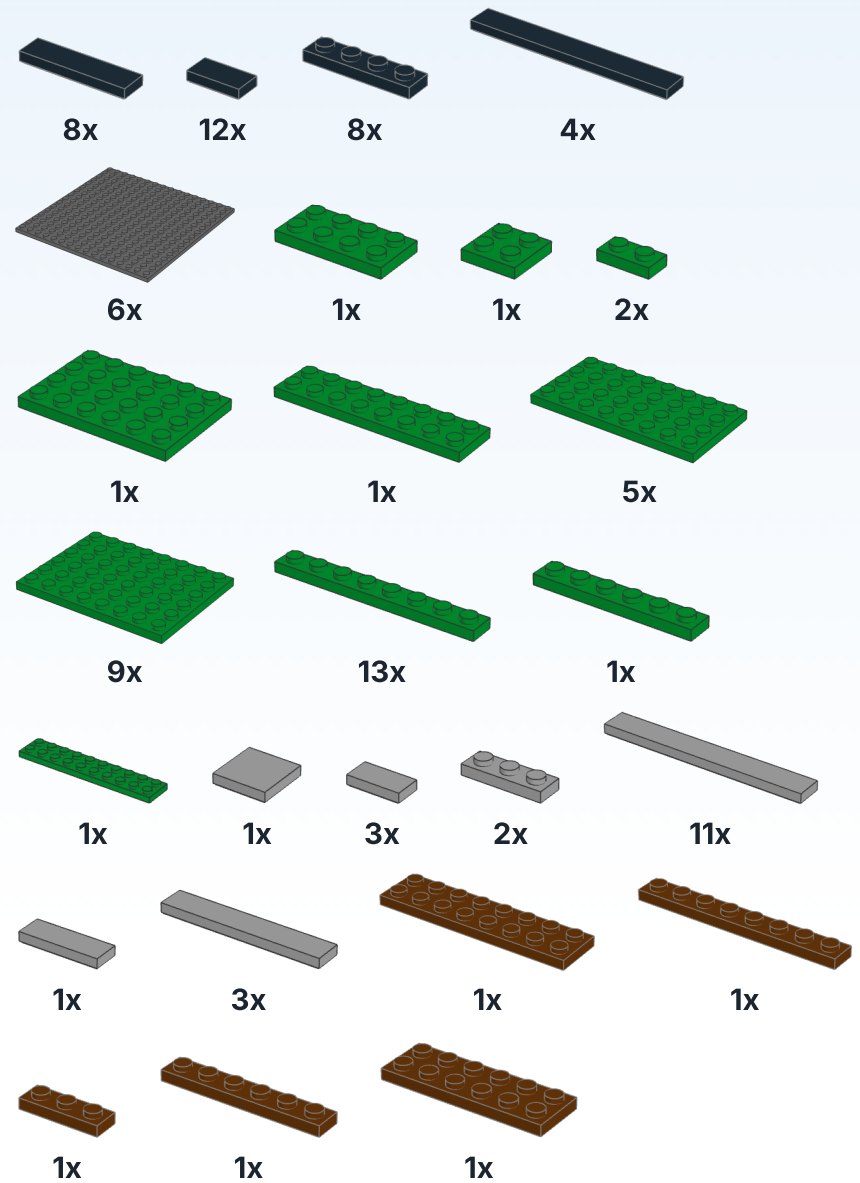

The lot

Six 16 × 16 plates make the base. The sidewalk, driveway and lawn lock them together.

Ordering the parts

1 · LEGO Pick a Brick (lego.com)

- 1. Go to **lego.com** → **Pick and Build** → **Pick a Brick** and choose **Upload list**.
- 2. Upload parts/pick_a_brick_upload.csv. It lists all 96 kinds of element by Element ID with their quantities, and fills your bag in one go.
- 3. If anything isn't matched, upload pick_a_brick_upload_retry.csv. It has LEGO's newer IDs for the same parts; many white parts got new IDs in 2025. Or search the inventory's design number and colour.
- 4. Bestseller elements can be ordered up to 999 at a time. Many Standard elements are limited to 10 per order. Every element this model needs more than 10 of was in the Bestseller range. The window frames and glass are Standard elements, so the model uses at most 10 of each.

2 · BrickLink or Rebrickable (backup)

The files in parts/ cover anything Pick a Brick does not stock:

- bricklink_wanted_list.xml: BrickLink → Want → Upload.
- rebrickable_parts.csv: import it as a Rebrickable part list, then compare stores.
- pick_a_brick_mapping.csv: how each part maps to Pick a Brick, with the evidence, the last price seen and a BrickLink backup.

What it costs

At Pick a Brick prices seen in 2022–2025, the 668 elements with a known price come to about **US\$115**, plus shipping. LEGO raised prices on about a third of Pick a Brick elements in 2026, so expect to pay more. The bag total after uploading shows the current price.

Order a few spare 1×1 bricks and plates, because small parts go missing easily.

Substitutions

- **Base:** six 16×16 plates. Any plates that cover 48×32 studs will do.
- **Stone:** mix the four colours of masonry bricks freely; plain bricks work too.
- **Hidden parts:** the floor plates and the fillers under the roof can be any colour.
- **Car:** pick any colour to match your own car.
